Part A

Listen to the phone call and choose the best answer A, B, C or D (Questions L1–L5).

Lucy, who works in the accounts department, phones Omar at the IT helpdesk.

L1. What is Lucy's problem?

A. She can't find a spreadsheet she saved.
B. Her computer won't start this morning.
C. She deleted an important spreadsheet.
D. She can't open File Explorer.

L2. What does Omar ask Lucy to do first?

A. Type the filename
B. Click on the folder icon
C. Right-click on the file
D. Restart her computer

L3. Where was the file?

A. On the desktop
B. In the Accounts folder
C. In a folder called Old Reports
D. In the Recycle Bin

L4. How big is the file?

A. 2.4 kilobytes
B. 24 megabytes
C. 2.4 megabytes
D. 2.4 gigabytes

L5. Why does Omar ask Lucy to drag the file into her Accounts folder?

A. To make a backup copy of it
B. So that she can find it easily next time
C. To make the file smaller
D. Because the Old Reports folder is full

Part B

Listen to the message and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Megan, an IT manager, tells Jack, an IT assistant, about the new laptops for the sales team.

L6. How much memory does each laptop have?

Answer (maximum 3 words): _____

L7. What will staff need if they want to use a DVD?

Answer (maximum 3 words): _____

L8. How will staff connect to the network in the office?

Answer (maximum 3 words): _____

L9. How long does the battery last?

Answer (maximum 3 words): _____

L10. On which day will the delivery arrive?

Answer (maximum 3 words): _____

Reading

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. A board where all the circuits of a computer are placed.

B. A pair of special glasses that let you see an environment produced by a computer that looks and seems real.

C. To divide the storage area of a hard disk into two or more parts.

D. A unique set of numbers and letters that you type in to prove that you have a licence to use a program.

E. A video camera that shows what it is filming on a website or on another person's computer.

F. The coloured bar at the top of a window that shows the name of the program.

R1. Partition _____

R2. Title bar _____

R3. Webcam _____

R4. Product key _____

R5. Motherboard _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. 1,000 gigabytes is the same as one _____.

A. megabyte
B. terabyte
C. kilobyte
D. nanobyte

R7. The cable is 2.75 metres long. How do we say '2.75'?

A. two point seven five
B. two point seventy-five
C. two comma seven five
D. two and seventy-five

R8. _____, click the Start button. Then select 'Control Panel'.

A. Finally
B. Last
C. First
D. After

R9. Plug the projector cable _____ the video socket on the laptop.

A. from
B. off
C. out
D. into

R10. When you have finished, unplug the headphones _____ the computer.

A. into
B. from
C. on
D. at

R11. I use an external hard drive _____ back up my photos.

A. for
B. so that
C. to
D. because

R12. I bought a new graphics card _____ my computer was too slow for video editing.

A. for
B. to
C. so that
D. because

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. Drag the _____ down to see the bottom of the page.

A. scroll bar
B. tick box
C. filename
D. menu

R14. _____ on the folder icon to open it.

A. Unplug
B. Double click
C. Scroll
D. Reboot

R15. Click the _____ button to make the window very small but keep the program open.

A. Maximise
B. Restart
C. Minimise
D. Close

R16. We use a _____ to show slides on a large screen in the meeting room.

A. microphone
B. speaker
C. headset
D. projector

R17. Please wear _____ if you listen to music in the office, so that you don't disturb other people.

A. speakers
B. microphones
C. headphones
D. projectors

R18. _____ the window so that it fills only half of the screen.

A. Resize
B. Press
C. Unplug
D. Reboot

R19. _____ software lets users see the program code and change it themselves.

A. Proprietary
B. Open source
C. External
D. Internal

R20. An _____ hard drive is not inside the computer case; it connects with a USB cable.

A. internal
B. optical
C. audio
D. external

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **New Computers for Greenway Architects**
>
> Greenway Architects is replacing the computers in its office this year. The old machines are seven years old, and staff often complain that they are slow. The IT manager, Sofia Grant, has written two different specifications, because the administration team and the design team do very different work.
>
> The administration staff mainly use email, word processing and spreadsheets, so they do not need very powerful machines. Sofia thinks that the new computers will be fast enough for them for the next five years. Sofia has chosen desktop computers with a 2.8 GHz dual-core processor, 8 GB of memory and a 500 GB hard disk drive. The administration office will also move to open source office software, which will reduce the company's licence costs.
>
> The designers are different. They work with large 3-D models and high-resolution images, so they need much faster computers. Their new machines will have a 3.6 GHz eight-core processor, 32 GB of memory and a 2 TB solid state drive for speed. Each designer will also get a large 32-inch monitor so that they can see small details in their drawings. They will keep their proprietary design software, because the open source alternatives are not as good for graphics.
>
> The new computers will arrive in March. Sofia plans to install them at the weekend so that staff do not lose any working time. Before then, she will copy every user's files to the server, and on Monday morning she will visit each desk to check that everything works.

R21. Why has Sofia written two different specifications?

- **A.** The two teams do very different work.
- **B.** The company has two offices.
- **C.** The designers asked for laptops.
- **D.** The supplier has two price lists.

R22. What will the administration computers have?

- **A.** A 2 TB solid state drive
- **B.** 32 GB of memory
- **C.** 8 GB of memory
- **D.** An eight-core processor

R23. Why will each designer get a large monitor?

- **A.** To watch training videos
- **B.** To use two computers at once
- **C.** To reduce the licence costs
- **D.** To see small details in drawings

R24. Why will the designers keep their proprietary software?

- **A.** It is free to use.
- **B.** The open source options are worse for graphics.
- **C.** Sofia wrote the software herself.
- **D.** The new computers cannot run other software.

R25. Why will Sofia install the new computers at the weekend?

- **A.** So that staff do not lose working time
- **B.** Because the computers arrive on Saturday
- **C.** To test the design software first
- **D.** Because the office is closed in March

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **Reinstalling the Operating System**
>
> Hi Leo, here are the steps for reinstalling the operating system on your laptop. First, back up all your files to an external drive, because the installation will delete everything on the laptop. Then insert the installation USB stick and restart the laptop. While it is starting, press the F2 key to open the BIOS. In the BIOS, choose the USB stick as the first boot drive, then save the change and reboot again.
>
> This time, the laptop will start from the USB stick, and the installation will begin. Near the start, you have to agree to the licence terms. During the process, the laptop will restart by itself several times, so please don't switch it off. The whole process usually takes about forty minutes. You can do other work while you wait, but keep the laptop connected to a power socket.
>
> At the end, the operating system will ask you for the time, the date and your network details. After that, you can create your user account and copy your files back from the external drive. Best wishes, Hannah

R26. The installation will delete everything on Leo's laptop.

☐ True ☐ False

R27. Leo should press the F2 key to open the BIOS.

☐ True ☐ False

R28. Leo should switch off the laptop when it restarts during the process.

☐ True ☐ False

R29. The whole process usually takes about four hours.

☐ True ☐ False

R30. Leo creates his user account at the start of the installation.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. This laptop has a 2.4 GHz quad-core processor, 16 GB of memory and a 512 GB solid state drive.

W32. First, right-click on the folder, and then select 'Properties' from the menu.

W33. Please unplug the projector from the laptop when you have finished the presentation.

W34. We back up our data every night so that we do not lose important files.

W35. Restart the computer to complete the installation of the new operating system.

Part B: Instruction email

You are an IT support technician. Daniel, a trainee in the marketing department, has a second monitor on his desk but does not know how to set it up. Write an email to Daniel explaining the steps, using the notes below. In your email you must use:
- imperatives with sequence words;
- at least one softener (could you…?, just);
- at least one sentence with two objects (plug … into …, connect … to …);
- at least one reason or purpose (to…, so that…, because…).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- connect the monitor cable to the video socket on the computer
- plug the monitor's power cable into a power socket / switch on the monitor
- right-click on the desktop / select 'Display settings'
- choose 'Extend these displays' / click 'Apply' so that you can use both screens
- drag a window onto the second screen to test it
- call the helpdesk if there is a problem / reminder: tidy the cables

Required language: Imperatives with sequencers: first, then, next, after that, finally; Softeners: could you…?, just; Sentences with two objects: connect the cable to the socket, plug the cable into the socket; Reason and purpose: to + verb, so that + clause, because + clause.

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Daniel

Date: _____

Subject: _____

Hi / Dear Daniel,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. Describe the computer or phone that you use most. What are its specifications? Say the numbers clearly, for example two point four gigahertz or five hundred and twelve gigabytes.

2. How do you connect your phone or laptop to other devices, for example headphones, a speaker or a TV? Use sentences with two objects (plug … into …, connect … to …).

3. Do you prefer open source or proprietary software? Give your reasons using because, for, to or so that.

Part 2 (S2)

Give instructions for using a computer. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A new colleague does not know how to organise files on a computer. Explain how to create a new folder on the desktop, give it a name and move a file into it. Use imperatives, sequence words (first, then, next, after that, finally) and at least one softener (could you…?, just).

- right-click on an empty part of the desktop
- select 'New', then 'Folder'
- type a name for the folder / press Enter
- drag a file onto the folder icon
- double click on the folder to check the file is there

Required language: Imperatives: Right-click…, Select…, Type…; Sequencers: first, then, next, after that, finally; Softeners: Could you…?, just.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You are a technician at a language school. Tomorrow a teacher is giving a hybrid lesson from a classroom computer: some students will be in the classroom, and other students will join online from home. Explain what equipment the teacher needs, how to connect each item and why each one is needed. Use sentences with two objects (plug … into …, connect … to …, unplug … from …) and reason or purpose (to…, so that…, because…, for…).

- a headset with a microphone: plug it into a USB port / so that the online students can hear the teacher clearly
- a projector: connect it to the video socket / to show the online students on the wall for the class in the room
- speakers: plug them into the audio socket / so that the students in the room can hear the online students
- after the lesson: unplug everything from the computer / lock the cupboard

Required language: Sentences with two objects: plug the headset into the USB port; connect the projector to the computer; unplug the speakers from the computer; Reason and purpose: to + verb; so that + clause; because + clause; for + noun.
