Part A

Listen to the phone call and choose the best answer A, B, C or D (Questions L1–L5).

Nadia, who works in the marketing department, phones Kevin at the IT helpdesk.

L1. What is Nadia's problem?

A. Her printer has run out of paper.
B. She can't open the Settings window.
C. Her laptop sends documents to the old printer.
D. Her laptop can't connect to the network.

L2. What does the Settings icon look like?

A. A small gear
B. A printer
C. A folder
D. A house

L3. How long does the search for printers usually take?

A. About three seconds
B. About thirty seconds
C. About three minutes
D. About thirteen seconds

L4. Which printer does Kevin tell Nadia to choose?

A. Floor 1 Colour
B. Marketing Printer
C. Floor 3 Black
D. Floor 3 Colour

L5. Why does Kevin ask Nadia to tick 'Set as default'?

A. So that the printer prints in colour
B. So that all her documents go to this printer automatically
C. To print a test page
D. To save paper

Part B

Listen to the talk and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Grace, the manager of a university Media Lab, shows a group of new students around the lab.

L6. How big is the screen on each computer?

Answer (maximum 3 words): _____

L7. How many video cameras does the lab have?

Answer (maximum 3 words): _____

L8. For how long can a student borrow a camera?

Answer (maximum 3 words): _____

L9. What do students usually use the virtual reality goggles for?

Answer (maximum 3 words): _____

L10. When does the lab clean all the computers?

Answer (maximum 3 words): _____

Reading

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. Someone who is being trained for a job.

B. The conditions, set by the software developer, under which a user can use a computer program.

C. A special camera that can be used to film events and convert them into electronic files.

D. One of the separate areas of a computer window where part of a program or set of files is displayed.

E. A piece of equipment that you speak into to record your voice or make it louder.

F. The disk in a computer that is used to start the program that makes the computer ready to be used.

R1. Pane _____

R2. Boot drive _____

R3. Licence terms _____

R4. Trainee _____

R5. Microphone _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. A nanosecond is one _____ of a second.

A. thousandth
B. millionth
C. billionth
D. hundredth

R7. The processor runs at 3.05 GHz. How do we say '3.05 GHz'?

A. three point five gigahertz
B. three comma zero five gigahertz
C. three point five zero gigahertz
D. three point zero five gigahertz

R8. First, open the Settings menu. _____, select 'Update'. Finally, click 'Install now'.

A. Finally
B. Then
C. First
D. Before

R9. Connect the printer _____ the laptop with a USB cable.

A. to
B. at
C. from
D. off

R10. _____ the USB stick from the port before you leave.

A. Insert
B. Plug
C. Connect
D. Remove

R11. We need a webcam _____ video calls with our clients.

A. to
B. for
C. so that
D. because

R12. Close the other programs _____ the installation runs faster.

A. for
B. to
C. so that
D. because of

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. Open a new _____ in your browser so that you can look at two websites at the same time.

A. tab
B. tick box
C. scroll bar
D. filename

R14. Click the _____ next to 'Remember me' if you don't want to type your password every time.

A. title bar
B. tick box
C. filename
D. folder

R15. The _____ shows our slides on the big screen in the meeting room.

A. webcam
B. printer
C. projector
D. scanner

R16. _____ the power cable before you open the computer case.

A. Resize
B. Scroll
C. Select
D. Unplug

R17. This laptop has a very fast _____, so it can run several programs at the same time.

A. CPU
B. socket
C. tab
D. cable

R18. To add more memory, insert a new memory module into the empty _____ on the motherboard.

A. Ethernet connector
B. DIMM slot
C. scroll bar
D. title bar

R19. Before you install the new operating system, _____ all your files to an external drive.

A. switch off
B. unplug
C. back up
D. resize

R20. The _____ in this video is very poor, so it's hard to hear what people are saying.

A. screen
B. image
C. printer
D. audio

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **Review: The Nimbus Mini PC**
>
> The Nimbus Mini PC is a tiny desktop computer. It is only 12 centimetres wide and weighs just 600 grams, so it fits easily behind a monitor or on a small shelf. The company that makes it says it is ideal for home offices, school classrooms and small shops.
>
> Inside the case, there is a 3.2 GHz six-core processor and 16 GB of memory. Customers can choose a 512 GB or a 1 TB solid state drive. In our tests, the computer was very quiet, and it ran office software, video calls and online games without any problems. However, it does not have a separate graphics card, so it is not powerful enough for professional video editing.
>
> On the front, there are two USB ports and a headphone socket. On the back, you will find two more USB ports, an Ethernet connector and two video sockets, so that you can connect the computer to two monitors at the same time. There is no optical drive, but you can plug an external DVD drive into one of the USB ports if you need one.
>
> The Nimbus costs £450 with the smaller drive and £520 with the larger one. A keyboard and a mouse come in the box, but you have to buy a monitor separately. Our verdict: the Nimbus is a good choice for anyone who needs a fast, quiet computer and does not have much space on their desk.

R21. Why does the Nimbus fit easily behind a monitor?

A. It has no cables.
B. It is very small and light.
C. It has a built-in screen.
D. It comes with a special shelf.

R22. What is the Nimbus NOT powerful enough for?

A. Office software
B. Video calls
C. Online games
D. Professional video editing

R23. How many USB ports does the Nimbus have in total?

A. Two
B. Three
C. Four
D. Six

R24. Why does the Nimbus have two video sockets?

A. So that you can connect it to two monitors at the same time
B. So that you can play DVDs without an external drive
C. To make the computer quieter
D. For headphones and other audio devices

R25. How much does the Nimbus with the 1 TB drive cost?

A. £450
B. £520
C. £600
D. £970

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **How to Use Split Screen**
>
> Do you often work with two documents at the same time? Split screen lets you see two windows side by side, so you don't have to switch between them all the time. This is useful, for example, when you copy information from a website into a report.

> First, open both programs. Then click on the title bar of the first window and drag it to the left edge of the screen. When you release the mouse button, the window fills the left half of the screen. Next, small pictures of your other open windows appear on the right. Just click on one of them, and it fills the right half.
>
> To make one window bigger than the other, slide the line between the two windows to the left or to the right. If you want to return to a full-screen window, click its maximise button. You can also split the screen with the keyboard: hold down the Windows key and press the left or right arrow key.

R26. Split screen shows two windows side by side.

☐ True ☐ False

R27. You drag the first window to the right edge of the screen.

☐ True ☐ False

R28. When you release the mouse button, the first window fills the whole screen.

☐ True ☐ False

R29. The two windows must always be the same size.

☐ True ☐ False

R30. You can split the screen with the Windows key and an arrow key.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. The new tablet has an eight-core processor, 128 GB of storage and a 10.5-inch screen.

W32. Could you just drag the file into the 'Reports' folder and then close the window?

W33. Connect the video camera to the computer with a USB cable to copy the videos.

W34. Many small companies choose open source software because they do not have to pay for licences.

W35. Partition the hard disk into two parts so that you can keep your files separate from the operating system.

Part B: Instruction email

You are an IT support technician. Sophie, a trainee in the HR department, needs to back up her work files to an external hard drive but does not know how. Write an email to Sophie explaining the steps, using the notes below. In your email you must use:
- imperatives with sequence words;
- at least one softener (could you…?, just);
- at least one sentence with two objects (plug … into …, unplug … from …);
- at least one reason or purpose (to…, so that…, because…).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- plug the external drive into a USB port on your laptop
- open File Explorer / select the folders you want to back up
- drag them onto the drive icon to copy them
- check that the files are on the drive
- right-click on the drive icon / select 'Eject' / unplug the drive from the laptop
- reminder: lock the drive in your drawer when you've finished (so that nobody can take it)

Required language: Imperatives with sequence words: First, … Then, … Next, … After that, … Finally, …; Softeners: just, could you…?; Sentences with two objects: plug the drive into a USB port, unplug the drive from the laptop; Reason and purpose: to + verb, so that + clause.

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Sophie

Date: _____

Subject: _____

Hi / Dear Sophie,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. How much storage does your phone or laptop have, and how much of it is free? Say the numbers and units clearly, for example sixty-four gigabytes or one point five terabytes.

2. What multimedia equipment do you have at home, for example speakers, a webcam or headphones? What do you use each one for? Use for + noun, to + verb or so that.

3. How do you save a document in a new folder on your computer? Give the instructions using imperatives and sequence words (first, then, next, finally).

Part 2 (S2)

Give instructions for using a computer. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Your grandmother has a new laptop. Explain how to change the desktop background to one of her own photos. Use imperatives, sequence words (first, then, next, after that, finally) and at least one softener (could you…?, just).

- right-click on an empty part of the desktop
- select 'Personalise'
- click 'Background' / choose 'Picture'
- click 'Browse' / find the photo in the Pictures folder
- click 'Choose picture' / close the window

Required language: Imperatives with sequence words: First, … Then, … Next, … After that, … Finally, …; Softeners: could you…?, just.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Your friend owns a small café. She wants to show music videos on a big TV and play music through speakers, and she wants customers to see the café's menu on the TV screen too. Explain what equipment she needs, how to connect each item and why each one is needed. Use sentences with two objects (plug … into …, connect … to …) and reason or purpose (to…, so that…, because…, for…).

- a small media player: plug it into the TV's HDMI socket / to play music videos from the internet
- two speakers: connect them to the media player / so that customers at the back can hear the music
- a laptop: connect it to the TV with a cable / for showing the café's menu
- an extension cable: plug it into the wall socket / because there is only one socket near the TV

Required language: Sentences with two objects: plug … into …, connect … to …; Reason and purpose: to + verb, so that + clause, because + clause, for + noun / -ing.
