PRACTICE TEST FOR INFORMATION TECHNOLOGY — UNIT 2: IT systems | TEST C

Đề AI Time allowed: 90 minutes

ANSWER KEY & REFERENCE RESPONSES

Listening: answers and transcripts

Part A

Chloe phones Marcus at Apex PCs, a computer shop, to order a new computer.

L1. Why does Chloe want a new computer?

Answer: B — Her old computer is too slow for 4K video.

Giải thích: Chloe: "My old one is far too slow for 4K video."

L2. How fast is the processor that Marcus recommends?

Answer: C — 4.2 GHz

Giải thích: "It runs at four point two gigahertz." Số 12 là số nhân (twelve-core), không phải tốc độ.

L3. How much memory does Chloe decide to have?

Answer: A — 64 GB

Giải thích: Marcus gợi ý 64 GB và Chloe đồng ý: "OK, sixty-four, then." 16 GB là máy cũ, 32 GB là mức tối thiểu.

L4. Why does Marcus suggest an external drive for Chloe's old projects?

Answer: D — It is cheaper than putting everything inside the computer.

Giải thích: Marcus: "That's cheaper than putting everything inside the computer."

L5. How much will the computer cost without the external drive?

Answer: B — £2,350

Giải thích: "it comes to two thousand three hundred and fifty pounds" = £2,350.

Listening transcript — Part A

Marcus: Apex PCs, Marcus speaking. How can I help?

Chloe: Hi. I'm a video editor, and I'd like to order a new computer. My old one is far too slow for 4K video.

Marcus: No problem. Let's start with the processor. For 4K editing, I'd recommend our twelve-core processor. It runs at four point two gigahertz.

Chloe: That sounds good. What about memory? My old computer has sixteen gigabytes.

Marcus: For video, you need at least thirty-two, but I'd suggest sixty-four gigabytes so that you can run several programs at once.

Chloe: OK, sixty-four, then. And storage? My video files are huge.

Marcus: I'd suggest a two terabyte drive for your programs and current projects, and a large external drive for old projects. That's cheaper than putting everything inside the computer.

Chloe: Good idea. Do I need a special graphics card?

Marcus: Yes, definitely. Video software uses the graphics card to make editing faster. Our best one has sixteen gigabytes of its own memory.

Chloe: Great. How much will all that cost?

Marcus: Without the external drive, it comes to two thousand three hundred and fifty pounds. We can build it in five working days.

Chloe: Perfect. Could you send me the details by email?

Part B

Ben explains three ways to take a screenshot on a Windows laptop.

L6. Where is the Print Screen key on most keyboards?

Answer: top right-hand corner / the top right / top right corner / top right / top right-hand / top-right corner / top-right / top right hand

Giải thích: "On most keyboards, it's in the top right-hand corner."

L7. Which keys do you press to paste the picture into a document?

Answer: control and v / control v / ctrl and v / ctrl v / control plus v / ctrl plus v / ctrl-v / control-v

Giải thích: "Then open a document and press Control and V to paste the picture."

L8. What colour does the screen go after you press Windows, Shift and S?

Answer: grey / gray / it goes grey

Giải thích: "Hold down the Windows key and the Shift key, and then press S. The screen goes grey."

L9. What is the name of the folder inside Pictures where screenshots are saved automatically?

Answer: the screenshots folder / screenshots folder / screenshots / in screenshots folder / screenshot folder / the screenshot folder / screenshot

Giải thích: "the screenshot is saved automatically in the Screenshots folder, inside your Pictures folder".

L10. How long is the delay that Ben suggests in the Snipping Tool?

Answer: five seconds / 5 seconds / five second / 5 second

Giải thích: "use the Snipping Tool and set a delay of five seconds".

Listening transcript — Part B

Ben: Hi, I'm Ben, and in today's video I'm going to show you three easy ways to take a screenshot on a Windows laptop.

Ben: The first way is the quickest. Just press the Print Screen key. On most keyboards, it's in the top right-hand corner. This copies the whole screen. Then open a document and press Control and V to paste the picture.

Ben: The second way is better if you only need part of the screen. Hold down the Windows key and the Shift key, and then press S. The screen goes grey. Now choose the part you want with your mouse. The picture is copied, so you can paste it into an email or a document.

Ben: The third way saves the picture as a file. Press the Windows key and Print Screen together. The screen goes dark for a second, and the screenshot is saved automatically in the Screenshots folder, inside your Pictures folder.

Ben: Finally, a useful tip: if you need a screenshot of a menu that disappears when you press a key, use the Snipping Tool and set a delay of five seconds. That gives you time to open the menu. See you next time!

Reading: answers and explanations

Matching (R1–R5)

R1. Icon

Answer: F — A small sign or picture on a computer screen that is used to start a particular operation.

Giải thích: Icon (biểu tượng) là hình nhỏ trên màn hình, dùng để bắt đầu một thao tác.

R2. Solid state drive

Answer: A — A computer disk that contains electronic parts, such as silicon chips, rather than moving mechanical parts.

Giải thích: Solid state drive (ổ cứng thể rắn, SSD) dùng linh kiện điện tử như chip silicon, không có bộ phận cơ khí chuyển động.

R3. User account

Answer: C — A system that records your username and password and gives you access to a computer, your email, etc.

Giải thích: User account (tài khoản người dùng) ghi lại tên đăng nhập và mật khẩu, cho phép truy cập máy tính, email…

R4. Drag

Answer: D — To move words, pictures, etc. on a computer screen by pulling them along with the mouse.

Giải thích: Drag (kéo) là di chuyển chữ, hình trên màn hình bằng cách giữ chuột và kéo đi.

R5. Ethernet cable

Answer: E — A type of cable used when a computer is connected to other computer networks.

Giải thích: Ethernet cable (cáp Ethernet, cáp mạng) là loại cáp dùng để nối máy tính với các mạng máy tính khác. Định nghĩa B là của socket (ổ cắm), không có trong danh sách thuật ngữ.

Grammar (R6–R12)

R6. A millisecond is one _____ of a second.

Answer: C — thousandth

Giải thích: Tiền tố milli- nghĩa là một phần nghìn: 1 millisecond = 1/1.000 giây. Một phần triệu là micro-, một phần tỷ là nano-.

R7. The company sold 2,500,000 laptops last year. How do we say '2,500,000'?

Answer: B — two million five hundred thousand

Giải thích: Khi đọc số, million, hundred, thousand đứng sau số đếm không thêm -s: two million five hundred thousand.

R8. Could you _____ the printer on, please? I need to print a report.

Answer: D — switch

Giải thích: Lời yêu cầu lịch sự: Could you + động từ nguyên mẫu không "to": "Could you switch the printer on?".

R9. Take the DVD _____ the drive and put it back in its case.

Answer: A — out of

Giải thích: Câu hai tân ngữ: take + tân ngữ 1 + out of + tân ngữ 2 (lấy cái gì ra khỏi đâu).

R10. Which sentence is correct?

Answer: C — Connect the printer to the laptop.

Giải thích: Trật tự câu hai tân ngữ: động từ + tân ngữ 1 (the printer) + giới từ (to) + tân ngữ 2 (the laptop). Các phương án khác đặt sai vị trí tân ngữ hoặc tách sai cụm danh từ.

R11. The video won't play _____ the file is damaged.

Answer: D — because

Giải thích: Vế sau (the file is damaged) là mệnh đề chỉ lý do nên dùng "because". "because of" chỉ đi với danh từ; "so that" chỉ mục đích; "to" không đi với mệnh đề.

R12. Double click the title bar _____ the window.

Answer: B — to maximise

Giải thích: Chỉ mục đích bằng to + động từ nguyên mẫu: "Double click the title bar to maximise the window".

Vocabulary (R13–R20)

R13. _____ on the file and choose 'Rename' from the menu that appears.

Answer: A — Right-click

Giải thích: Right-click (nhấp chuột phải) để mở menu các lệnh, ví dụ Rename (đổi tên).

R14. Give the document a clear _____, such as 'Sales_May', so that you can find it easily later.

Answer: D — filename

Giải thích: Filename (tên tệp) là tên bạn đặt cho một tệp.

R15. To print the document, choose 'Print' from the File _____.

Answer: D — menu

Giải thích: Menu (trình đơn) là danh sách các lệnh trên màn hình; menu File có lệnh Print.

R16. If a program stops responding, _____ the computer.

Answer: C — restart

Giải thích: Restart (khởi động lại) là cho máy chạy lại sau khi đã dừng, ví dụ khi chương trình bị treo.

R17. Type your question in the search box and _____ the Enter key.

Answer: A — press

Giải thích: Press (nhấn) một phím hoặc nút để máy thực hiện việc gì.

R18. This game has amazing 3-D _____: the cars and buildings look almost real.

Answer: C — graphics

Giải thích: Graphics (đồ hoạ) là hình ảnh tạo ra trong chương trình máy tính để thể hiện đồ vật.

R19. You need to wear special _____ over your eyes to see the virtual reality world.

Answer: D — goggles

Giải thích: Virtual reality goggles (kính thực tế ảo) là kính đặc biệt đeo lên mắt để thấy môi trường do máy tính tạo ra. Headphones đeo trên tai.

R20. Setting up a new email account is a short _____: it has three steps and takes about five minutes.

Answer: B — process

Giải thích: Process (quy trình) là chuỗi các bước làm để đạt một kết quả.

Reading comprehension (R21–R25)

R21. Why did Hillside School need to make a change?

Answer: B — The old operating system was going to stop receiving security updates.

Giải thích: Đoạn 1: máy đã 6 năm tuổi và hệ điều hành độc quyền "was going to stop receiving security updates".

R22. Why did the laptops run faster after the change?

Answer: C — The open source system needs less memory.

Giải thích: Đoạn 2: "Because the open source system needs less memory, the laptops ran faster than before."

R23. Why did the school buy memory modules for 120 laptops?

Answer: A — So that they could run video software

Giải thích: Đoạn 2: "buy extra 4 GB memory modules for 120 of the laptops, so that they could run video software".

R24. How long did each installation take?

Answer: D — About twenty-five minutes

Giải thích: Đoạn 3: "Each installation took about twenty-five minutes, and the whole project took three weeks."

R25. Why did the school keep ten laptops with the old system?

Answer: A — Because the exam software only works on the old system

Giải thích: Đoạn 4: "the school's exam software only works on the old proprietary system, so the school kept ten laptops with the old system for exams".

True / False (R26–R30)

R26. Wired headphones are usually cheaper than wireless headphones.

Answer: T — True

Giải thích: Đoạn 1: "They are usually cheaper than wireless ones".

R27. All new phones have a headphone socket.

Answer: F — False

Giải thích: Đoạn 1: "many new phones do not have a headphone socket".

R28. Most wireless headphones play music for 20 to 30 hours before they need charging.

Answer: T — True

Giải thích: Đoạn 2: "Most models play music for 20 to 30 hours before you need to charge them."

R29. Professional sound engineers prefer wireless headphones.

Answer: F — False

Giải thích: Đoạn 2: "professional sound engineers still prefer wired headphones because there is no delay".

R30. The noise-cancelling function does not use any extra battery power.

Answer: F — False

Giải thích: Đoạn 3: "the noise-cancelling function uses extra battery power".

Translation (W31–W35)

W31. The server has two 3.4 GHz processors and 256 GB of memory.

Bản dịch tham khảo: Máy chủ có hai bộ xử lý 3,4 GHz và 256 GB bộ nhớ.

W32. First, select the text, and then click the 'Bold' button on the toolbar.

Bản dịch tham khảo: Đầu tiên, hãy chọn đoạn văn bản, sau đó nhấp vào nút 'Bold' trên thanh công cụ.

W33. Plug the speakers into the audio socket on the back of the computer.

Bản dịch tham khảo: Hãy cắm loa vào cổng âm thanh ở mặt sau máy tính.

W34. We use a projector in the classroom so that all the students can see the slides clearly.

Bản dịch tham khảo: Chúng tôi dùng máy chiếu trong lớp học để tất cả học sinh có thể nhìn rõ các trang chiếu.

W35. Open source software is usually free, and users can see and change the program code.

Bản dịch tham khảo: Phần mềm nguồn mở thường miễn phí, và người dùng có thể xem và thay đổi mã chương trình.

Instruction email to Marco

You are an IT support technician. Marco, a sales assistant, needs to install the company's new sales software on his laptop. Write an email to Marco explaining the steps, using the notes below. In your email you must use:
- imperatives with sequence words;
- at least one softener (could you…?, just);
- at least one sentence with two objects (insert … into …, take … out of …);
- at least one reason or purpose (to…, so that…, because…).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- save your work / close all programs (so that you don't lose anything)
- insert the installation USB stick into a USB port
- double click on 'setup' / accept the licence terms
- enter the product key from the box / click 'Install'
- restart the laptop to complete the installation
- reminder: take the USB stick out of the laptop / return it to the IT office when you've finished

Model email

> From: Pham Thu Trang
> To: Marco
> Date: 17th May
> Subject: Installing the new sales software
>
> Hi Marco,
>
> It should be quite easy to install the new sales software.
> First, save your work and close all programs so that you don't lose anything.
> Then, insert the installation USB stick into a USB port.
> Next, just double click on 'setup' and accept the licence terms.
> After that, enter the product key from the box and click 'Install'.
> Finally, restart the laptop to complete the installation.
> Don't forget to take the USB stick out of the laptop and return it to the IT office when you've finished.
>
> Best wishes,
> Pham Thu Trang
> Support Technician
> Help Desk Department

Speaking

2.5 points

Các bài mẫu là gợi ý tham khảo, không phải đáp án đúng duy nhất. Part 1 có câu hỏi mở và không có bài mẫu trong bộ dữ liệu.

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. How fast is the internet connection at your home, and how big are the files you usually download? Say the numbers and units clearly, for example fifty megabits per second or two point five gigabytes.

2. Why do many people keep their photos and documents in cloud storage? Give two or three reasons using because, for, to or so that.

3. How do you copy photos from your phone to a computer? Use sentences with two objects (connect … to …, plug … into …, copy … onto …).

Part 2 (S2)

Give instructions for using a computer. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A classmate wants to share a file with you from their online storage, for example Google Drive, but does not know how. Explain the steps. Use imperatives, sequence words (first, then, next, after that, finally) and at least one softener (could you…?, just).

- open the online storage website / log in
- find the file / right-click on it
- select 'Share'
- type the other person's email address
- choose 'Viewer' or 'Editor'
- click 'Send'

Required language: Imperatives with sequence words: First, … Then, … Next, … After that, … Finally, …; Softeners: could you…?, just.

Sample response

> Sharing a file is really easy. First, open the website in your browser and log in with your email and password. Then find the file you want to share. You can just type the filename in the search box at the top. Next, right-click on the file and select 'Share' from the menu. A small window appears. After that, could you type my email address in the box? Make sure you spell it correctly. Then choose 'Viewer' if you only want me to read the file, or 'Editor' if you want me to change it too. For our project, please choose 'Editor', because we both need to write in it. Finally, click 'Send'. I'll get an email with a link to the file in a few seconds.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Your manager wants to use the office's old desktop computers for two more years. Explain to her which parts you want to add or change, how you will connect or install each one and why it is needed. Use sentences with two objects (put … into …, connect … to …, plug … into …) and reason or purpose (to…, so that…, because…, for…).

- 8 GB more memory: put the module into the empty DIMM slot / so that staff can open several programs
- a solid state drive instead of the old hard disk / because it starts programs much faster
- a second monitor: connect it to the video socket / for working with two documents
- a webcam: plug it into a USB port / to join video meetings with clients

Required language: Sentences with two objects: put … into …, connect … to …, plug … into …; Reason and purpose: to + verb, so that + clause, because + clause, for + noun / -ing.

Sample response

> I think we can use the old computers for two more years if we change a few parts. First, I'd like to add eight gigabytes of memory. I'll put the new module into the empty DIMM slot on the motherboard, so that staff can open several programs at the same time. Second, I want to replace the old hard disk with a solid state drive, because it starts programs much faster. Third, each person could have a second monitor. I'll connect it to the video socket on the back of the computer. It's very useful for working with two documents at once. Finally, we need webcams. I'll plug them into the USB ports to let staff join video meetings with clients. All of this is much cheaper than buying new computers.
