Part A

Listen to the conversation and choose the best answer A, B, C or D (Questions L1–L5).

Sarah, an office manager, talks to Hassan, a network engineer, about the network for a new office.

L1. Why does the company need a new network?

A. It is opening a new office in Hai Phong.
B. The old network in Hanoi is too slow.
C. Eight new people are joining the Hanoi office.
D. The company's server is broken.

L2. What does Hassan suggest for the desks?

A. Wi-fi
B. Wired connections
C. A separate printer for each desk
D. A new server

L3. How will the staff in Hai Phong use a server?

A. They will buy their own server.
B. They will not use a server at all.
C. They will connect to the Hanoi server through a VPN.
D. They will share a server with another company.

L4. According to Hassan, why is the VPN secure?

A. It only works in the meeting room.
B. It uses wired connections.
C. It changes the password every day.
D. It encrypts the data between the two offices.

L5. When can Hassan start the installation?

A. This week
B. On the fifteenth
C. On Friday
D. In three days

Part B

Listen to the talk and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Owen from IT Services explains the student portal to new university students.

L6. Where can students find their student number?

Answer (maximum 3 words): _____

L7. How did the university send students their first password?

Answer (maximum 3 words): _____

L8. What is the minimum number of characters for the new password?

Answer (maximum 3 words): _____

L9. What should students clear if a page does not load?

Answer (maximum 3 words): _____

L10. Where must students always log out of the portal?

Answer (maximum 3 words): _____

Reading

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. A copy of something presented in a form that can be read on a computer.

B. A rule or instruction about the best way to do something.

C. Connected together using pieces of thin metal in the form of threads.

D. To attach a computer code to a word, phrase, image, etc. in order to arrange the data in a particular way.

E. A circuit that connects the main parts of a computer so that signals can be sent from one part to another.

F. A small area on a web browser that you click on in order to go to the previous page.

R1. Guideline _____

R2. Tag _____

R3. Bus _____

R4. Back button _____

R5. Electronic version _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. Look! The printer _____ the same page again and again.

A. print
B. are printing
C. is printing
D. printing

R7. This laptop _____ to the sales department, not to us.

A. belongs
B. is belonging
C. belong
D. belonging

R8. The laptop _____ I bought last month is already too slow.

A. who
B. what
C. where
D. which

R9. Staff _____ work from home need to use the VPN.

A. which
B. what
C. who
D. whose

R10. If you press Ctrl and Z, the computer _____ your last action.

A. undid
B. undoes
C. undoing
D. will undoing

R11. If the new laptops _____ on Friday, we will set them up next week.

A. will arrive
B. arrives
C. arriving
D. arrive

R12. There is _____ USB port on the left side of the laptop.

A. an
B. a
C. any
D. much

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. _____ the link at the bottom of the email to read the full article on our website.

A. Follow
B. Sign
C. Delete
D. Post

R14. Please _____ the delivery form to show that you have received the parcel.

A. refresh
B. sign
C. delete
D. follow

R15. I left my _____ at home, so I can't charge my phone today.

A. flowchart
B. invoice
C. recharger
D. attachment

R16. We scanned the old paper documents and used _____ software to change them into text that we can edit.

A. GPS
B. LAN
C. VPN
D. OCR

R17. The calculator app has all the basic _____, such as adding, subtracting and multiplying.

A. functions
B. signatures
C. recipients
D. invoices

R18. Our technicians can fix most software problems _____, so they don't need to visit your office.

A. exactly
B. remotely
C. carefully
D. early

R19. All the team leaders will _____ in a discussion about the new network next Monday.

A. sign
B. post
C. take part
D. report

R20. The clinic keeps a _____ of every patient visit on the computer.

A. feature
B. location
C. flowchart
D. record

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **Smartphones on the Farm**
>
> Gareth Jones has a dairy farm with 150 cows in north Wales. Five years ago, he did all his paperwork at the kitchen table in the evening. Today, he does most of it on his smartphone while he is working in the fields.
>
> Each cow wears a small sensor on its collar. The sensor measures how much the cow moves and sends the information to an app on Gareth's phone. If a cow moves much less than usual, it is often ill, so the app warns him immediately. 'I'm finding problems two or three days earlier than before,' Gareth says. 'If I find a problem early, the vet's bill is much smaller.'
>
> The farm also has sensors in the fields which measure how wet the soil is. Every morning, Gareth checks these readings before he decides where the cows will go that day. When he needs animal food, he orders it with another app, which shows him the prices of three different companies.
>
> There are still some problems. The mobile signal on parts of the farm is weak, so the sensors cannot always send their data. Gareth is solving this by putting a small wi-fi mast on the roof of his barn. 'Farming is still hard work,' he says, 'but my phone saves me about ten hours a week. If I'm not doing paperwork in the evening, I can spend more time with my family.'

R21. Where did Gareth do his paperwork five years ago?

A. At the kitchen table
B. In the fields
C. In the barn
D. At the vet's office

R22. What does the sensor on each cow's collar measure?

A. The cow's temperature
B. How much milk the cow gives
C. How much the cow moves
D. How wet the soil is

R23. What happens if a cow moves much less than usual?

A. The app warns Gareth immediately.
B. The vet comes to the farm automatically.
C. The sensor stops working.
D. The cow goes to another field.

R24. Why does Gareth check the readings from the field sensors every morning?

A. To order animal food
B. To find ill cows
C. To compare prices
D. To decide where the cows will go that day

R25. How is Gareth solving the problem with the weak mobile signal?

A. He is buying a new phone.
B. He is putting a wi-fi mast on the roof of his barn.
C. He is moving the sensors closer to the house.
D. He is doing the paperwork in the evening again.

Part 2B: True / False (R26–R30)

Read the email and write T (True) or F (False) (Questions 26–30).

> **Network maintenance this Saturday**
>
> Hi everyone,

> Our network provider is upgrading the equipment in the server room this Saturday, 14th June, from 8 a.m. to 2 p.m. During this time, the internet, email and the shared drives will not be available. We chose Saturday because very few people work at the weekend.
>
> If you need to work at the weekend, please download the files that you need before you leave on Friday. The VPN will also be offline, so you won't be able to connect from home.
>
> The phone system uses a separate line, so it will work as normal. Customers can still call the helpdesk, but technicians won't be able to open customer accounts until the work is finished. If there is an urgent problem on Saturday, please call my mobile.
>
> Please switch off your computer before you leave on Friday, but don't unplug it. If a computer is still on, the update restarts it automatically, and you may lose any work that you haven't saved.
>
> Thanks for your help,
>
> Kevin Moore, IT Manager

R26. The maintenance work will finish at 2 p.m. on Saturday.

☐ True ☐ False

R27. Staff will be able to use the VPN from home during the maintenance.

☐ True ☐ False

R28. The phone system will not work during the maintenance.

☐ True ☐ False

R29. Staff should unplug their computers before they leave on Friday.

☐ True ☐ False

R30. If a computer is still on, the update restarts it automatically.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. This week, the IT team is moving all the company's files to a new server.

W32. We need a printer that can print on both sides of the paper.

W33. If you lose your phone, we will lock it remotely so that nobody can read your data.

W34. If a customer signs on the tablet, the app sends an electronic version of the contract to the office.

W35. Please send me the report as an attachment, not in the body of the email.

Part B: Instruction email

You are an IT officer. A lot of staff are taking their summer holidays this month. Olivia, a new accountant, has asked how to set up an automatic reply for her emails while she is away. Write an email to Olivia explaining the steps, using the notes below. In your email you must use:
- the present continuous at least once for something that is happening now or around now (Lots of staff are taking…);
- at least one relative clause with which, that or who;
- at least one zero or first conditional sentence (If + present simple, present simple / will + verb).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- this month: lots of staff / take their summer holidays
- open your email program / click 'File', then 'Automatic Replies'
- select 'Send automatic replies'
- type a short message (give the date when you'll be back)
- add the name of a colleague (this person can help while you're away)
- tick 'Inside my organisation only' (then only colleagues will get the reply)
- reminder: click 'OK' when you've finished

Required language: Present continuous for something happening now or around now: Lots of staff are taking their holidays this month; Relative clauses with which, that or who: a message which gives…, a colleague who can help…; Zero or first conditional: If you only want to reply to…, tick… / If someone writes to you, they will…; Imperatives with sequence words for the steps.

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Olivia

Date: _____

Subject: _____

Hi / Dear Olivia,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. What device do you use most, and what are you using it for most this week? Use the present simple for things you usually do and the present continuous for things you are doing now or this week.

2. What happens if you leave a phone in the hot sun or drop it in water? Use zero conditional sentences (If you…, the phone…).

3. What kinds of messages and files do you usually send to your teachers or friends? Use relative clauses with which, that or who (I send photos which…, I write to friends who…).

Part 2 (S2)

Explain the parts of a web browser. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Your uncle has just started using the internet. Explain what each part of a web browser in the cues is and what it does. Use relative clauses with which, that or who (The address bar is the box which…, A tab is something that…).

- address bar
- back button
- refresh button
- bookmark
- tab

Required language: Relative clauses with which, that or who: The address bar is the box which…, A tab is something that….

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A friend owns a small café and is not sure whether to offer free wi-fi to customers. Explain the benefits and the risks, and give your advice. Use first conditional sentences (If you offer…, customers will…) and at least one zero conditional sentence (If many people stream videos, the network…).

- customers stay longer / buy more drinks and food
- students and people who work online choose your café
- risk: if many people stream videos, the connection gets slow
- advice: a separate guest network keeps the café's computer safe / change the password every week

Required language: First conditional: If you offer free wi-fi, customers will…; Zero conditional: If many people stream videos, the connection gets slow.
