Part A

Listen to the conversation and choose the best answer A, B, C or D (Questions L1–L5).

Lucy and Owen run a small gift shop. They compare three security camera kits for the shop.

L1. How much does the HomeEye kit cost?

A. £80
B. £260
C. £340
D. £190

L2. What is the main advantage of the Guardian kit?

A. It has the clearest picture.
B. It is the cheapest kit.
C. It has the easiest app.
D. It has the most cameras.

L3. How long does the HomeEye kit keep recordings?

A. Four days
B. Seven days
C. Two weeks
D. Thirty days

L4. Why is the HomeEye kit not suitable for the shop?

A. It costs more than their budget.
B. It does not work at night.
C. It does not keep recordings for long enough.
D. It does not have a phone app.

L5. Why does Lucy choose the SafeView kit?

A. It has the clearest picture at night.
B. It is cheaper than Guardian and has a better app.
C. It is the cheapest of the three kits.
D. It is the only kit with four cameras.

Part B

Listen to the voicemail and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Ruth, an IT consultant, leaves a voicemail for the manager of the Lakeside Hotel about the hotel's Wi-Fi.

L6. Which floor has the weakest Wi-Fi signal?

Answer (maximum 3 words): _____

L7. How many more access points does Ruth recommend?

Answer (maximum 3 words): _____

L8. What type of internet connection does Ruth recommend?

Answer (maximum 3 words): _____

L9. What should the hotel have for its guests?

Answer (maximum 3 words): _____

L10. On which day can Ruth do the work?

Answer (maximum 3 words): _____

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. A way of charging that means you pay more for a more complicated version of something and less for a simpler version.

B. A system where each website is held on its own web server connected to the internet.

C. A formal written promise to repair or replace a product if it breaks within a specific period of time.

D. A special number that identifies a computer when it connects to the internet.

E. A book or document that explains how to use a product.

F. The amount of information that you are allowed to transfer through a connection in one month.

R1. Dedicated hosting _____

R2. Monthly bandwidth _____

R3. Guarantee _____

R4. User guide _____

R5. Tiered pricing _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. My old phone has 64 GB of storage, but my new one has 256 GB. The new phone has _____ storage than the old one.

A. most
B. much
C. more
D. many

R7. This tablet has only one USB port, but that laptop has four. The tablet has _____ USB ports than the laptop.

A. fewer
B. the fewest
C. little
D. a few

R8. The K1 is the _____ expensive keyboard in the shop. All the others cost more.

A. less
B. least
C. fewest
D. lower

R9. How much did the new speakers _____?

A. spend
B. pay
C. charge
D. cost

R10. Four external hard drives at £75 each _____ to £300.

A. come
B. cost
C. spend
D. pay

R11. Excuse me, can you tell me where _____?

A. is the nearest repair centre
B. does the nearest repair centre
C. the nearest repair centre is
D. the nearest repair centre

R12. I think we _____ upgrade the memory in our old computers before we buy new ones.

A. ought
B. must to
C. should
D. had

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. This is a _____ update with many new features, so it may take an hour to install.

A. minor
B. major
C. spare
D. shared

R14. You can _____ the headphones in the shop before you buy them.

A. come out
B. log out
C. try out
D. set out

R15. The account _____ is the person who owns the account and pays for it.

A. holder
B. reader
C. charger
D. server

R16. In the _____ to her talk, the speaker explained what she was going to cover.

A. conclusion
B. body
C. summary
D. introduction

R17. Drawings on paper are _____: they have length and width, but no depth.

A. 2-D
B. 3-D
C. HD
D. 4K

R18. Take the memory _____ out of the camera and put it into your laptop.

A. plan
B. card
C. fee
D. set

R19. Before the team starts the project, we need a clear _____ that shows who will do each task and when.

A. holder
B. set
C. plan
D. fee

R20. You need a _____ to use this software legally in your company.

A. reader
B. charger
C. holder
D. licence

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **Buying or Renting Laptops at Brightpath**
>
> Brightpath is a new marketing company in Leeds with twelve employees, and it opened in March. At the moment, the staff are using laptops that the owner borrowed from his previous company, and he has to return them at the end of the month. The office manager, Chloe, needs to decide whether Brightpath should buy or rent new laptops.
>
> If the company buys them, each laptop costs £750, so twelve laptops come to £9,000. Brightpath would own the machines, but it would have to pay an IT company to look after them. Laptops also become slower over time, and the company would probably need to replace them after about four years.
>
> The other option is to rent laptops from a company called TechLease. This costs £30 per laptop each month, so for twelve laptops Brightpath would pay £360 a month, or £4,320 a year. The price includes technical support, and TechLease changes the laptops for newer models every two years. Chloe phones TechLease and asks whether it can add more laptops quickly when new staff join. The salesperson says it can deliver them within three days.
>
> Chloe compares the two options. Over three years, renting comes to £12,960, which is more than buying. However, Brightpath has only £5,000 in the bank at the moment, and it plans to hire eight more people next year. For these reasons, Chloe recommends renting for the first two years and then reviewing the decision.

R21. Why does Brightpath need new laptops?

A. The old laptops are too slow.
B. The staff have to return their laptops.
C. Some of the laptops are broken.
D. The owner wants to sell the laptops.

R22. How much would it cost to buy twelve laptops?

A. £750
B. £4,320
C. £9,000
D. £12,960

R23. What did Chloe ask TechLease?

A. How much the support costs each month
B. Whether the laptops are new or used
C. When it changes the laptops for newer models
D. Whether it can add more laptops quickly

R24. What is one disadvantage of renting?

A. It costs more than buying over three years.
B. It does not include technical support.
C. New laptops take a month to arrive.
D. The laptops become slower over time.

R25. Why does Chloe recommend renting?

A. Renting is the cheapest option over four years.
B. The owner does not want to own laptops.
C. The company has little money now and will grow.
D. TechLease offers a free laptop for new staff.

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **A Second Screen for Anna**
>
> Anna works from home as a translator and uses a 14-inch laptop. She often needs to have two documents open at the same time, so she wants a second screen for her desk. Her laptop screen is quite small, and she finds it tiring to switch between windows all day. Her budget is £200.
>
> She compares two monitors in an online shop. The V24 is a 24-inch monitor, and it costs £135. The V27 is bigger, at 27 inches, and it has a sharper picture, but it costs £230. Both monitors connect to her laptop with the same HDMI cable, and both have built-in speakers.
>
> Before she orders, Anna sends the shop a message and asks whether the V24 can be fixed to a wall. The shop replies that it can, but the wall bracket is not included and costs £25 extra. Anna decides to buy the V24 and the bracket, which together come to £160. She plans to spend the money that she saves on a better keyboard.

R26. Anna uses a 14-inch laptop for her work.

☐ True ☐ False

R27. The V27 is cheaper than the V24.

☐ True ☐ False

R28. The two monitors connect to her laptop with the same cable.

☐ True ☐ False

R29. The wall bracket is included in the price of the V24.

☐ True ☐ False

R30. Anna spends more than her budget on the monitor and the bracket.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. Dedicated hosting is more expensive than shared hosting, but it gives you more control over the server.

W32. Do you know how much monthly bandwidth our website uses?

W33. The three new printers cost £450 each, so the total came to £1,350.

W34. This is the lightest laptop in the shop, and its battery lasts the longest.

W35. I recommend that we read the user guide carefully before we install the new router.

Part B: Instruction email

You are an IT technician. The company has bought ShieldPro, a new antivirus program, for its 15 computers. Sofia, the office manager, is going to install it while you are away. Write an email to Sofia explaining the steps, using the notes below. In your email you must use:
- at least one comparative or superlative (faster than, the safest);
- the verbs cost or come to to talk about the price;
- at least one recommendation (I recommend…, I think it's best to…);
- at least one indirect question (Could you let me know whether…?).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- ShieldPro: faster than the old antivirus
- insert the USB stick / run the installer on each computer
- licence: £20 per computer (15 computers: £300)
- enter the licence key / restart the computer
- recommend a full scan the first time (the safest option)
- ask Sofia to tell you whether any computer shows an error message
- reminder: return the USB stick to the IT office

Required language: Comparatives and superlatives (at least one): faster than, the safest; Talking about money: cost, come to; Recommendations (at least one): I recommend + -ing / noun phrase; I think it's best to…; Indirect questions (at least one): Could you let me know whether…?.

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Sofia

Date: _____

Subject: _____

Hi / Dear Sofia,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. Think about two shops or websites where people buy technology. Which one is better, and why? Use comparatives and superlatives (cheaper than, more reliable than, the best).

2. How much do you usually pay for your mobile phone plan or home internet each month? Is it good value? Use cost, pay, spend or come to.

3. A friend wants to buy their first laptop for university. What advice would you give? Use at least two recommendation structures (I think you should…, I recommend…, it's best to…).

Part 2 (S2)

Compare the products and give a recommendation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A friend runs a small design studio and needs a new printer. The studio prints about 2,000 colour pages a month. Compare the three printers in the cues and recommend one. Use comparatives and superlatives, and at least one recommendation structure (I recommend…, I think you should…, it's best to…).

- InkJet 50: £120 / colour / 15 pages a minute / 8p per page
- LaserMono: £260 / black and white only / 30 pages a minute / 3p per page
- ColourLaser 9: £420 / colour / 25 pages a minute / 5p per page
- the studio: about 2,000 colour pages a month

Required language: Comparatives and superlatives: cheaper than, faster than, the most expensive, the lowest; Recommendations: I recommend + -ing / that you + verb; I think you should…; it's best to….

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Your office ordered new equipment from an IT supplier, but the invoice is wrong. Phone the supplier. Explain what you ordered and what everything should cost, using cost and come to and saying the prices clearly. Then ask at least three polite indirect questions (Could you tell me why…?, Do you know whether/if…?, Can you tell me when…?).

- your order: 6 webcams at £60 each / 6 docking stations at £110 each
- correct total: £1,020
- the invoice says 12 webcams / total £1,380
- you want: the reason for the mistake, a new invoice, the delivery date

Required language: Talking about money: The webcams cost…; the order comes to…; we paid / we spent…; Saying prices: sixty pounds; one thousand and twenty pounds; one thousand three hundred and eighty pounds; Indirect questions (at least three): Could you tell me why the invoice says…?; Do you know whether you can send…?; Can you tell me when the equipment will arrive?.
