Part A

Listen to the phone call and choose the best answer A, B, C or D (Questions L1–L5).

Lena, a manager in the Accounts department, phones Ahmed at the IT help desk about the company's new expenses app.

L1. Why does Lena phone the IT help desk?

A. To report that the app has stopped working
B. To ask for a new phone for her team
C. To ask for training on the new app
D. To book the training room for a meeting

L2. How does Lena's team enter receipts at the moment?

A. They type them in by hand.
B. They scan them with their phones.
C. They send them to Ahmed.
D. They take photos with a camera.

L3. Why does Lena want to learn how to approve claims?

A. Her team has just started work.
B. She is getting more and more requests.
C. Ahmed asked her to do it.
D. The old app did not have this feature.

L4. When will the training take place?

A. On Monday morning
B. On Thursday morning
C. On Thursday at eleven
D. On Friday at eleven

L5. What does Ahmed ask the team to do?

A. Read the instructions this afternoon
B. Bring their phones with the app installed
C. Come to the training room at eleven
D. Send him their receipts by email

Part B

Listen to the announcement and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Dr Patel, the head of IT at a university, announces a new video conferencing room.

L6. Which room is the new video conferencing room?

Answer (maximum 3 words): _____

L7. How many people can sit in the room?

Answer (maximum 3 words): _____

L8. About how much money could the university save each year?

Answer (maximum 3 words): _____

L9. What should people use to book the room?

Answer (maximum 3 words): _____

L10. On which day does Mr Lewis give a short introduction?

Answer (maximum 3 words): _____

Reading

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. Adding a label to a program or document so that its data is arranged in a particular way.

C. component
D. procedure

R18. At the staff meeting, the director made an important _____ about the new office in Singapore.

A. component
B. delivery
C. announcement
D. code

R19. Please follow the correct _____ when you report a security problem: first phone the help desk, and then complete the online form.

A. trend
B. component
C. announcement
D. procedure

R20. The new _____ camera shows every small detail of the product very clearly.

A. remote
B. high-definition
C. overseas
D. local

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **Working from Home at Bluewave Software**
>
> Bluewave Software is a company in Da Nang with ninety employees. Five years ago, almost everyone worked in the office from Monday to Friday, and meetings were always held in the same building. Today the situation is very different. More and more staff are working from home for part of the week, and the number of people in the office on a typical day is going down.
>
> The company's latest survey shows that 60% of employees now work from home two or three days a week. Most of them say that they are getting more work done, because they spend less time travelling to and from the office. Online meetings are also becoming shorter, as teams are learning to prepare better before each call.
>
> However, the change is causing some problems. New employees are finding it harder to learn from experienced colleagues, because they rarely sit next to them. Some staff also say that they feel lonely when they work at home all week. At the same time, the office is getting more expensive to run, even though it is often half empty.
>
> The managers have decided that all teams will come to the office every Tuesday and Thursday. On these days, new employees can work next to their mentors and ask questions face to face. The managers are also thinking about moving to a smaller office. If they did this, they would save around $40,000 a year.

R21. What is happening to the number of people in the office on a typical day?

- **A.** It is going up.
- **B.** It is going down.
- **C.** It is staying the same.
- **D.** It doubled five years ago.

R22. According to the survey, why are employees getting more work done?

- **A.** They have faster computers at home.
- **B.** Their meetings are getting longer.
- **C.** They spend less time travelling.
- **D.** They work on Tuesdays and Thursdays.

R23. What problem do new employees have?

- **A.** It is harder for them to learn from experienced colleagues.
- **B.** They cannot join online meetings from home.
- **C.** They have to work in the office every day.
- **D.** The office is too far from their homes.

R24. What will happen every Tuesday and Thursday?

- **A.** The office will be closed.
- **B.** Staff will have online meetings only.
- **C.** The company will hire new mentors.
- **D.** All teams will come to the office.

R25. What would happen if the company moved to a smaller office?

- **A.** It would save about $40,000 a year.
- **B.** It would need ninety more desks.
- **C.** Staff would have to work at home every day.
- **D.** New employees would feel lonely.

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **A Small Hotel Goes Online**
>
> The Seaview Hotel is a small family hotel in Cornwall with fourteen rooms and a view of the sea. Until last year, most guests booked their rooms by phone. Now more and more guests are booking through the hotel's website, and the number of phone bookings is going down.
>
> Last spring, the owner's daughter, Jess, started a social media page for the hotel. She posts photos of the rooms, the beach and the breakfast menu three times a week. The page now has 4,000 followers, and the number is going up every month. Jess replies to every comment within one day, because she wants guests to feel welcome even before they arrive.
>
> Not everything is easy. Some guests write negative comments, for example about the slow Wi-Fi in the rooms. Jess says that if the hotel had better Wi-Fi, it would get much better comments. The family is planning to upgrade the network in the winter, when the hotel is closed and there are no guests.

R26. Until last year, most guests booked their rooms by phone.

☐ True ☐ False

R27. The number of phone bookings is increasing.

☐ True ☐ False

R28. Jess posts photos on the page every day.

☐ True ☐ False

R29. Jess replies to every comment within one day.

☐ True ☐ False

R30. The hotel is closed in the winter.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. DRM stops people from copying the e-books and music that they have bought.

W32. If our staff had better training, they would make fewer mistakes with the new system.

W33. More and more companies are using file sharing services to work with remote colleagues.

W34. B2C, which means business to consumer, is the most common type of e-commerce.

W35. Could someone show me how to add tags to my photos in the company's online library?

Part B: Instruction email

You are an IT support technician. More and more staff are using TeamTalk, the company's instant messaging app, on their phones. Mia, a new sales assistant, wants to install it. Write an email to Mia explaining the steps, using the notes below. In your email you must use:
- imperatives and sequence words for the steps;
- at least one sentence describing a current trend (present continuous or more and more);
- at least one second conditional sentence (If + past simple, … would/could + verb), for example to explain what would happen if she didn't set her status to "Away";
- at least one polite request (Could you…? / It would be great if you could…), for example asking Mia to send you a test message.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- download TeamTalk from the app store
- sign in with your work email and password
- join the channel for the sales department
- set your status to 'Away' when you are out (if not: colleagues would expect a quick reply)
- ask Mia to send you a test message
- reminder: lock your phone

Required language: Imperatives with sequence words: First, Then, Next, After that, Finally; Describing current trends: present continuous; more and more + noun; Second conditional: If + past simple, … would/could + verb; Polite requests: Could you…?, It would be great if you could….

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Mia

Date: _____

Subject: _____

Hi / Dear Mia,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. How is the way students study changing these days? Describe two trends. Use the present continuous and words such as more and more, is getting/becoming + comparative, or is increasing/decreasing.

2. If your class had a video conference with students in another country, what would you talk about, and what would you learn? Answer with the second conditional (If we had…, we would…).

3. You want to learn how to use a new app for your studies. Make at least two polite requests to your teacher (It would be great to know…, Could you show me…?, I'd like to know…).

Part 2 (S2)

Explain the terms. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Your grandparents are starting to shop online, but they do not understand some words on shopping websites. Explain what each term in the cues means and give a simple example. Give the meanings in at least two different spoken ways: called, which means, or is.

- shopping basket
- cookie
- NFC payment
- B2B

Required language: Giving meanings in at least two of three ways (called / which means / be): a small file called a cookie; B2B, which means business to business; A shopping basket is….

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You are the IT manager of a supermarket chain. Your manager asks how customers' shopping habits are changing and whether the supermarket should buy self-checkout machines. First, describe the current trends in the cues with the present continuous, more and more, get/become + comparative, or go up/go down. Then explain what would happen if the supermarket bought the machines, with at least two second conditional sentences (If we bought…, customers would…).

- online orders: going up by about 20% a year
- cash payments: going down
- phone payments: more and more popular
- queues at weekends: getting longer
- proposal: ten self-checkout machines (£4,000 each)

Required language: Present continuous for current changes: Online orders are going up.; more and more + noun; get/become + comparative adjective: Queues are getting longer.; Second conditional (at least two sentences): If we bought the machines, customers would wait less..
