ANSWER KEY & REFERENCE RESPONSES

Listening: answers and transcripts

Part A

Sophie, a manager at a small IT company, asks Max, a technician, about a client's website that is not working.

L1. What has Max already checked?

Answer: B — The web server

Giải thích: Max nói "I've already checked the web server". Tên miền là thứ anh chưa kiểm tra.

L2. When did Max phone the hosting company?

Answer: C — At nine o'clock

Giải thích: "Yes, I phoned them at nine." Mốc thời gian cụ thể trong quá khứ nên dùng quá khứ đơn.

L3. Before Sophie looks at it with him, what hasn't Max checked yet?

Answer: A — When the domain name expires

Giải thích: Sophie hỏi đã ai kiểm tra ngày hết hạn tên miền chưa, Max trả lời "Not yet. I haven't had time."

L4. Why was the domain name not renewed?

Answer: D — The person who renews it has left the company.

Giải thích: Người thường gia hạn là Carla, "she left the company last month, so nobody saw the reminder emails".

L5. What does Sophie ask Max to do?

Answer: C — Add a reminder to their own calendar

Giải thích: "please add a reminder to our own calendar, so this doesn't happen again next year". Việc gọi khách hàng là Max tự đề xuất.

Listening transcript — Part A

Sophie: Max, the Bakery Direct website still isn't working, and the client has called three times this morning. What have you done so far?

Max: I've already checked the web server. It's running, and there are no error messages. I've also looked at the logs, but I haven't found anything unusual.

Sophie: Have you spoken to the hosting company yet?

Max: Yes, I phoned them at nine. They said their network is fine.

Sophie: OK. What about the domain name? Has anyone checked when it expires?

Max: Not yet. I haven't had time.

Sophie: Let's look now. Here it is. The domain expired yesterday!

Max: So that's why nobody can open the site. Who usually renews it?

Sophie: Their office manager, Carla. But she left the company last month, so nobody saw the reminder emails.

Max: I'll call the client now and ask them to renew it today. The site should work again within a few hours.

Sophie: Good. And please add a reminder to our own calendar, so this doesn't happen again next year.

Giải thích: "I'd like to live abroad for a few years, maybe in Singapore."

Listening transcript — Part B

Khoa: Hi, everyone. My name's Khoa, and I'm in my final year of computer science. I expect to graduate in July. For the last two years, I've worked part-time at the university help desk, where I've learned a lot about solving users' problems. I've also organised a coding club for first-year students, and that has helped me to improve my communication skills.

Khoa: After graduation, I plan to apply for jobs in cybersecurity, because I think it's the most interesting area of IT. I've already passed one security certificate, and I intend to take a second one in the autumn. I don't expect it to be easy to find a job, because there are many good candidates, but I've already started to prepare for interviews.

Khoa: I hope to work for a bank, because banks need strong security teams. In the long term, I'd like to live abroad for a few years, maybe in Singapore. But first, I plan to save some money and improve my English. Thank you.

Instruction email to Tara

You are an IT support technician. Tara, a sales assistant, reported that her laptop keeps losing the Wi-Fi connection in the meeting room. Write an email to Tara explaining what you have already done and how she can fix the problem, using the notes below. In your email you must use:
- the present perfect with already and with yet (I have already…, I haven't… yet);
- may, might or could to talk about a possible cause;
- should or try + -ing to suggest a solution.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- already: restart the router / not yet: replace the old access point
- possible cause: an old Wi-Fi driver on Tara's laptop
- open Settings / choose 'Forget this network'
- connect again / enter the password (on the meeting-room wall)
- update the Wi-Fi driver / restart the laptop
- if the connection is still weak: try sitting closer to the router
- reminder: switch off the projector in the meeting room

Speaking

2.5 points

Các bài mẫu là gợi ý tham khảo, không phải đáp án đúng duy nhất. Part 1 có câu hỏi mở và không có bài mẫu trong bộ dữ liệu.

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. What have you already learned in your IT course this year, and what haven't you learned yet? Use the present perfect with already and yet.

2. Your friend's computer makes a loud noise and then switches itself off. What do you think the cause is? Use may, might, could, must or can't.

3. Where do you expect to be in ten years? Talk about your job and where you would like to live. Use plan to, intend to, hope to or expect to.

Part 2 (S2)

Suggest solutions to a problem. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A colleague has backache and painful wrists after long hours at the computer. Suggest solutions, using the cues. Use should, try + -ing or try + noun, and at least two first conditional sentences with should (If…, you should…).

- chair: too low / adjust the height
- screen: too close / about an arm's length away
- wrists: a soft wrist rest
- a short break every hour
- simple stretching exercises for the back

Required language: should / shouldn't for advice; try + -ing / try + noun: Try using a wrist rest; Try a short walk.; First conditional with should (at least two): If your chair is too low, you should adjust it..

Sample response

> I'm sorry to hear about your back and your wrists. I think there are a few easy solutions. First, your chair looks too low. If your chair is too low, you should adjust the height so that your eyes are level with the top of the screen. Your screen is also very close to your face. You should move it about an arm's length away. For your wrists, try using a soft wrist rest in front of the keyboard. It really helps. Also, you shouldn't sit for hours without moving. If you work for more than an hour, you should take a short break and walk around the office. Finally, try some simple stretching exercises for your back every morning. If the pain doesn't get better, you should see a doctor.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You work at a help desk. This morning the network printer on the second floor stopped printing, and nobody on that floor can print. Your manager phones you and asks what you have done so far. Use the cues. Use the present perfect with already and yet for what you have and haven't done, and the past simple for actions at a finished time (at 8.30, at 10 o'clock).

- 8.30: staff reported the problem
- already: restarted the printer / cleared the print queue (error code 49)
- 10 o'clock: you sent an email to all staff on the second floor
- not yet: contacted the printer supplier / found the cause
- next step: what you plan to do this afternoon

Required language: Present perfect with already: I've already restarted the printer.; Present perfect with yet: I haven't contacted the supplier yet.; Past simple with finished times: Staff reported the problem at 8.30..

Sample response

> Staff on the second floor reported the problem at eight thirty this morning. The network printer stopped printing, and nobody on that floor can print anything. I've already restarted the printer, but that didn't help. I've also cleared the print queue, and the printer now shows error code forty-nine. At ten o'clock, I sent an email to all the staff on the second floor and asked them to use the printer on the first floor for now. However, I haven't found the cause yet, and I haven't contacted the printer supplier yet, because their support line opens at one o'clock. This afternoon, I plan to call them and send them a photo of the error. I hope to fix the printer before the end of the day.
