Part A

Listen to the conversation and choose the best answer A, B, C or D (Questions L1–L5).

Sophie, a manager at a small IT company, asks Max, a technician, about a client's website that is not working.

L1. What has Max already checked?

A. The domain name
B. The web server
C. The client's computers
D. The reminder emails

L2. When did Max phone the hosting company?

A. Yesterday
B. Last month
C. At nine o'clock
D. He hasn't phoned them yet.

L3. Before Sophie looks at it with him, what hasn't Max checked yet?

A. When the domain name expires
B. Whether the server is running
C. The hosting company's network
D. The error messages on the server

L4. Why was the domain name not renewed?

A. The client did not want to pay.
B. The hosting company forgot.
C. Max was too busy.
D. The person who renews it has left the company.

L5. What does Sophie ask Max to do?

A. Renew the domain himself
B. Phone the hosting company again
C. Add a reminder to their own calendar
D. Find a new office manager

Part B

Listen to the talk and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Khoa, a final-year computer science student, talks about his career plans at a university careers event.

L6. When does Khoa expect to graduate?

Answer (maximum 3 words): _____

L7. Where has Khoa worked part-time for the last two years?

Answer (maximum 3 words): _____

L8. Which area of IT does Khoa want to work in?

Answer (maximum 3 words): _____

L9. What kind of organisation does Khoa hope to work for?

Answer (maximum 3 words): _____

L10. In which country might Khoa live in the long term?

Answer (maximum 3 words): _____

Reading

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. Software or a printed manual that asks you a series of questions to help you discover why a computer is not working.

B. The people who work in a company or organisation.

C. Changed to make it more suitable for you, or to make it look different from similar things.

D. The first and simplest of several levels in an organisation or system.

E. A failure of an electrical system caused by bad wires or a broken connection between them.

F. Unnecessary features in a program that use more of the computer's resources than necessary and give users little benefit.

R1. Troubleshooting guide _____

R2. Short circuit _____

R3. Tier 1 _____

R4. Bloatware _____

R5. Customised _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. We _____ three problems with the network since Monday.

A. had
B. have had
C. have
D. are having

R7. Don't worry about the new user accounts. I've _____ created them.

A. yet
B. ago
C. already
D. still

R8. Only Tom's computer can't get online, and its network cable is lying on the floor next to the desk. The cable _____ be the problem.

A. can't
B. mustn't
C. must
D. doesn't

R9. Ana's phone feels very warm right now. It might _____ a large update in the background.

A. installing
B. be installing
C. installs
D. to install

R10. If you find a USB stick in the car park, you _____ plug it into your computer.

A. don't should
B. shouldn't to
C. not should
D. shouldn't

R11. If the app still crashes, try _____ it.

A. reinstalling
B. reinstall
C. to reinstalling
D. reinstalled

R12. We expect _____ the new servers by the end of the month.

A. receiving
B. to receive
C. receive
D. received

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. Be careful not to _____ your coffee on the keyboard.

A. bend
B. burn
C. spill
D. award

R14. My smartwatch measures my heart rate from my _____.

A. wrist
B. knee
C. ankle
D. shoulder

R15. Switch off the projector and let it _____ before you move it.

A. come out
B. cool down
C. log out
D. try out

R16. Our mobile data _____ has gone up since we started watching videos on the train.

A. wrist
B. subject
C. backache
D. usage

R17. The phone company has sent us a _____ for £85 for last month's calls.

A. fault
B. bill
C. subject
D. solution

R18. The technician found a _____ in the power supply, so he replaced it.

A. fault
B. bill
C. subject
D. usage

R19. Checking the backups every morning is one of my _____ as a system administrator.

A. qualifications
B. applications
C. governments
D. responsibilities

R20. My favourite _____ at university was computer networks.

A. bill
B. fault
C. subject
D. usage

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **The Three O'Clock Problem**
>
> Every afternoon at about three o'clock, the network at Greenleaf Accountants becomes very slow. Files take minutes to open, and video calls with clients freeze. The staff are getting frustrated, and two clients have already complained. In the morning, everything works normally. The office manager has called the company's IT supplier, and a technician, Omar, has come to investigate.
>
> Omar's first idea was that the router might be too old. However, the router was replaced only six months ago, and it works well in the mornings. For these reasons, he decided that the router can't be the cause of the problem.
>
> Next, Omar looked at the network traffic. He found that at three o'clock, one laptop starts to upload a huge amount of data to the internet. The laptop belongs to Ruth, a new employee who joined the company last week. Omar thinks it must be a backup program, because the files that the laptop is sending are copies of Ruth's documents.
>
> When Omar asked her about it, Ruth explained that her son had set up a free online backup service on the laptop before she started her new job. It was set to run every afternoon. Omar suggested that she should change the time to seven in the evening, when the office is empty. He also said that if staff want to back up their work, they should use the company's server instead of free online services.

R21. When is the network slow?

A. Every morning
B. Every afternoon at about three o'clock
C. Only during video calls
D. At seven in the evening

R22. Why did Omar decide that the router couldn't be the cause?

A. It is new and works well in the mornings.
B. It was checked by the office manager.
C. Ruth's laptop does not use it.
D. Its lights are all working.

R23. What did Omar find when he looked at the network traffic?

A. Several video calls were running at once.
B. The server was downloading updates.
C. One laptop was uploading a lot of data.
D. A client was sending large files.

R24. Who set up the online backup service on Ruth's laptop?

A. Omar
B. The office manager
C. Ruth's new manager
D. Ruth's son

R25. What did Omar suggest that Ruth should do?

A. Change the backup time to the evening
B. Buy a new router for the office
C. Stop backing up her documents
D. Work from home in the afternoons

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **Cutting the Electricity Bill at Brightwell School**
>
> Brightwell School's electricity bill has gone up by 30% this year. The head teacher has asked the IT technician, Ms Lowe, to find out why. She has already checked the computer rooms and has found

that most of the sixty computers are never switched off at night. Many of them are also left on all weekend.

Ms Lowe has suggested three solutions. First, all the computers should switch off automatically at six in the evening. Second, if a projector is not used for fifteen minutes, it should go into sleep mode. Third, teachers should try using laptops instead of the old desktop computers, because laptops use much less power.

The school has not bought any new laptops yet, because the money for this year has already been spent. However, the automatic switch-off started last week, and Ms Lowe expects to see a lower bill next month. She also plans to put small notices next to the computers to remind students to switch them off.

R26. The school's electricity bill has gone up by 30% this year.

☐ True ☐ False

R27. Ms Lowe found that most of the computers are switched off at night.

☐ True ☐ False

R28. Ms Lowe has suggested that projectors should go into sleep mode after fifteen minutes without use.

☐ True ☐ False

R29. The school has already bought some new laptops.

☐ True ☐ False

R30. The automatic switch-off started last week.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. A short circuit can start a fire, so you should never use damaged cables.

W32. I have already sent the problem to the second level of support, but they haven't replied yet.

W33. The computer can't have a virus, because we scanned it this morning.

W34. If your eyes feel tired, you should try looking away from the screen every twenty minutes.

W35. After my degree, I plan to work for a year and then study for a further qualification in cloud computing.

Part B: Instruction email

You are an IT support technician. Tara, a sales assistant, reported that her laptop keeps losing the Wi-Fi connection in the meeting room. Write an email to Tara explaining what you have already done and how she can fix the problem, using the notes below. In your email you must use:
- the present perfect with already and with yet (I have already…, I haven't… yet);
- may, might or could to talk about a possible cause;
- should or try + -ing to suggest a solution.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- already: restart the router / not yet: replace the old access point
- possible cause: an old Wi-Fi driver on Tara's laptop
- open Settings / choose 'Forget this network'
- connect again / enter the password (on the meeting-room wall)
- update the Wi-Fi driver / restart the laptop
- if the connection is still weak: try sitting closer to the router
- reminder: switch off the projector in the meeting room

Required language: Present perfect with already and yet; Speculating: may, might, could + verb; Suggesting solutions: should; try + -ing; If…, you should….

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Tara

Date: _____

Subject: _____

Hi / Dear Tara,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. What have you already learned in your IT course this year, and what haven't you learned yet? Use the present perfect with already and yet.

2. Your friend's computer makes a loud noise and then switches itself off. What do you think the cause is? Use may, might, could, must or can't.

3. Where do you expect to be in ten years? Talk about your job and where you would like to live. Use plan to, intend to, hope to or expect to.

Part 2 (S2)

Suggest solutions to a problem. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A colleague has backache and painful wrists after long hours at the computer. Suggest solutions, using the cues. Use should, try + -ing or try + noun, and at least two first conditional sentences with should (If…, you should…).

- chair: too low / adjust the height
- screen: too close / about an arm's length away
- wrists: a soft wrist rest
- a short break every hour
- simple stretching exercises for the back

Required language: should / shouldn't for advice; try + -ing / try + noun: Try using a wrist rest; Try a short walk.; First conditional with should (at least two): If your chair is too low, you should adjust it..

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You work at a help desk. This morning the network printer on the second floor stopped printing, and nobody on that floor can print. Your manager phones you and asks what you have done so far. Use the cues. Use the present perfect with already and yet for what you have and haven't done, and the past simple for actions at a finished time (at 8.30, at 10 o'clock).

- 8.30: staff reported the problem
- already: restarted the printer / cleared the print queue (error code 49)
- 10 o'clock: you sent an email to all staff on the second floor
- not yet: contacted the printer supplier / found the cause
- next step: what you plan to do this afternoon

Required language: Present perfect with already: I've already restarted the printer.; Present perfect with yet: I haven't contacted the supplier yet.; Past simple with finished times: Staff reported the problem at 8.30..
