ANSWER KEY & REFERENCE RESPONSES

Listening: answers and transcripts

Part A

Mark, an office manager, and Paula, a helpdesk supervisor, discuss a problem with the helpdesk.

L1. What is the problem on Monday mornings?

Answer: A — The helpdesk gets too many calls.

Giải thích: Paula nói sáng thứ Hai có khoảng 60 cuộc gọi từ 9 đến 11 giờ, nhóm không trả lời hết nên người dùng phải chờ lâu.

L2. How many calls does the helpdesk normally get between nine and eleven?

Answer: B — Twenty

Giải thích: "Normally we get twenty." Sáu mươi là số cuộc gọi vào sáng thứ Hai.

L3. Why does Paula disagree with hiring another technician?

Answer: C — It is too expensive for two hours a week.

Giải thích: Paula nói "I'm afraid that's too expensive. We only need extra help for two hours a week."

L4. When does Mark suggest installing the updates?

Answer: A — On Friday afternoon

Giải thích: Mark gợi ý "How about moving the updates to Friday afternoon?". Tối Chủ nhật là thời điểm cập nhật hiện nay, gây ra vấn đề.

L5. What will Paula do by the end of the month?

Answer: D — Prepare three short videos

Giải thích: Mark hỏi "Could you prepare three videos by the end of the month?" và Paula đồng ý.

Listening transcript — Part A

Mark: Paula, thanks for coming. You said the helpdesk has a problem on Monday mornings?

Paula: Yes. On Mondays we get about sixty calls between nine and eleven. Normally we get twenty. My team can't answer them all, so people wait for a long time.

Mark: Why are Mondays so busy?

Paula: Mostly because of the updates. The system installs updates on Sunday night, and on Monday people can't find their programs, or their settings are different.

Mark: I see. Shall we hire another technician?

Paula: I'm afraid that's too expensive. We only need extra help for two hours a week.

Mark: True. How about moving the updates to Friday afternoon? Then your team can help people before the weekend.

Paula: That's a good idea. Friday afternoons are usually quiet.

Mark: And what about writing some short help pages on the intranet? People could solve the simple problems themselves.

Paula: Maybe we could make short videos too. A lot of users prefer watching to reading.

Mark: Great. Could you prepare three videos by the end of the month?

Paula: Yes, no problem. I'll start next week.

Part B

Rachel, a network technician, talks about her job at a university careers day.

L6. Where does Rachel work?

Giải thích: "This check takes about fifteen minutes."

L8. How often does Rachel replace old cables and switches?

Answer: twice a week

Giải thích: "Twice a week, I replace old cables and switches". "Once a month" là tần suất làm ca đêm.

L9. How often does Rachel work a night shift?

Answer: once a month

Giải thích: "once a month I work a night shift", vì chỉ cập nhật máy chủ chính được khi bệnh viện yên tĩnh.

L10. What does Rachel say you need to be for a job like hers?

Answer: calm / be calm / very calm

Giải thích: "I think you need to be calm, because problems in a hospital are always urgent."

Listening transcript — Part B

Rachel: Hello, everyone. My name's Rachel, and I'm a network technician at City Hospital. Thank you for inviting me to your careers day.

Rachel: I look after the hospital's network, which connects more than eight hundred computers, so my job is very important. A normal day starts at half past seven. First, I always check that every part of the network is working. This check takes about fifteen minutes. Then I usually answer messages from doctors and nurses who can't log in to the system.

Rachel: Twice a week, I replace old cables and switches, and once a month I work a night shift, because we can only update the main servers when the hospital is quiet. I hardly ever work at weekends.

Rachel: The thing I like most about my job is that I help the doctors to help their patients. If you want to do a job like mine, I think you need to be calm, because problems in a hospital are always urgent. Any questions?

Instruction email to Tom

You are the IT support manager. Tom is a new support technician in your team. Write an email to Tom explaining how to set up a computer for a new member of staff, using the notes below. In your email you must use:
- at least two adverbs of frequency or time expressions (always, usually, every Friday);
- at least two rule structures (must, mustn't, have to, should) or imperatives.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- unpack the computer / connect it to the network
- switch it on / install the company software (usually takes twenty minutes)
- create a user account / always set a temporary password
- never give the password over the phone
- test the printer
- write the details in the helpdesk log (checked every Friday)
- reminder: lock the store room when you've finished

Speaking

2.5 points

Các bài mẫu là gợi ý tham khảo, không phải đáp án đúng duy nhất. Part 1 có câu hỏi mở và không có bài mẫu trong bộ dữ liệu.

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. How often do you use a computer or phone for your studies, and what do you usually do on it? Use adverbs of frequency and time expressions (usually, sometimes, hardly ever, twice a week).

2. Imagine you are interviewing someone who works for an IT company. Ask three questions about what the company does. Use present simple questions (Does your company…? What do you…? Who are your…?).

3. What are the rules in your university's computer room? Use must, mustn't, have to, can't or should.

Part 2 (S2)

Describe an IT job. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A first-year student wants to know about jobs in IT. Choose ONE job from the cues and explain what the person does, what they are responsible for and how often they do each task. Use the present simple, be responsible for, and adverbs of frequency or time expressions (usually, sometimes, once a week).

- Choose one job: database administrator / project manager / helpdesk supervisor
- main duties
- what the person is responsible for
- how often they do each task
- would you like to do this job? Why or why not?

Required language: Present simple for duties: He/She plans…, She checks…; be responsible for + noun / -ing; Adverbs of frequency and time expressions: usually, always, sometimes, once a week, from time to time.

Sample response

> I'd like to talk about the job of a project manager. A project manager is responsible for IT projects, for example a new website or a new office network. They plan each project and make sure that it finishes on time and doesn't cost too much money. They usually start the day by checking emails and the project plan. Once a week, they have a meeting with the developers and the client to talk about progress. They often write reports for the directors, and from time to time they need to solve problems when a task is late. They hardly ever write code themselves. I think I would like this job, because I enjoy organising things and working with people, but it can be quite stressful.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You and your manager are planning a training day for new staff in your company. Respond to your manager's ideas in the cues, then make at least two suggestions of your own. Use shall or could, how about / what about + -ing, maybe or perhaps, and I'm afraid… to disagree politely.

- Manager's idea 1: hold the training day on Saturday → disagree politely and give a reason
- Manager's idea 2: give each new employee a printed copy of the IT rules → agree
- Your suggestions: start with a tour of the office / record short videos about the IT rules / invite the helpdesk supervisor to speak

Required language: Suggestions: Shall we…?, We could…, How about / What about + -ing?; Softening: Maybe / Perhaps we could…; Disagreeing politely: I'm afraid… + reason.

Sample response

> Thank you for your ideas. I'm afraid Saturday isn't a good day for the training, because most new staff have family plans at the weekend, and we would have to pay them extra. Perhaps we could hold it on a Monday instead. I agree that we should give everyone a printed copy of the IT rules. That's a great idea, because they can read it again later. I also have some suggestions. How about starting the day with a short tour of the office? Then people know where the helpdesk and the server room are. Maybe we could record some short videos about the IT rules, so new staff can watch them again at home. And shall we invite the helpdesk supervisor to speak for twenty minutes? She can explain how to report a problem.
