ANSWER KEY & REFERENCE RESPONSES

Listening: answers and transcripts

Part A

Lucy, who works in the accounts department, phones Omar at the IT helpdesk.

L1. What is Lucy's problem?

Answer: A — She can't find a spreadsheet she saved.

Giải thích: Lucy nói "I saved a spreadsheet this morning, but now I can't find it anywhere."

L2. What does Omar ask Lucy to do first?

Answer: B — Click on the folder icon

Giải thích: "First, could you just click on the folder icon at the bottom of the screen?" Gõ tên tệp và nhấp chuột phải là các bước sau.

L3. Where was the file?

Answer: C — In a folder called Old Reports

Giải thích: Lucy tìm thấy tệp "in a folder called Old Reports". Thư mục Accounts là nơi Omar bảo kéo tệp vào sau đó.

L4. How big is the file?

Answer: C — 2.4 megabytes

Giải thích: Lucy đọc "two point four megabytes" = 2.4 MB.

L5. Why does Omar ask Lucy to drag the file into her Accounts folder?

Answer: B — So that she can find it easily next time

Giải thích: "just drag the file into your Accounts folder so that you can find it easily next time".

Listening transcript — Part A

Omar: IT helpdesk, Omar speaking.

Lucy: Hi, it's Lucy from Accounts. I saved a spreadsheet this morning, but now I can't find it anywhere.

Omar: OK, don't worry. Do you remember the filename?

Lucy: I think it's June Sales.

Omar: Right. First, could you just click on the folder icon at the bottom of the screen? That opens File Explorer.

Lucy: OK, it's open.

Omar: Now click on This PC in the left-hand pane. Then type June Sales in the search box in the top right-hand corner and press Enter.

Lucy: It's searching... Yes! There it is. It's in a folder called Old Reports.

Omar: That's why you couldn't find it. You probably saved it there by mistake. Now, can you right-click on the file and select Properties? I'd like to check the size.

Lucy: It says two point four megabytes.

Omar: That's fine. Finally, just drag the file into your Accounts folder so that you can find it easily next time.

Lucy: OK. Do I need to delete it from Old Reports after that?

Omar: No, dragging moves the file, so there won't be a second copy.

Lucy: Done. Thanks so much, Omar!

Part B

Megan, an IT manager, tells Jack, an IT assistant, about the new laptops for the sales team.

L6. How much memory does each laptop have?

Answer: sixteen gigabytes / 16 gigabytes / 16 gb / sixteen gb

Giải thích: Megan nói "sixteen gigabytes of memory". Một terabyte là dung lượng ổ SSD, không phải bộ nhớ.

L7. What will staff need if they want to use a DVD?

Answer: an external drive / external drive / external dvd drive

Giải thích: Máy không có ổ quang nên "they'll need an external drive".

L8. How will staff connect to the network in the office?

Answer: the wi-fi / wi-fi / wifi / by wi-fi / use the wi-fi

Giải thích: Máy không có cổng Ethernet nên "staff will have to use the wi-fi in the office".

L9. How long does the battery last?

Answer: about ten hours / ten hours / 10 hours / about 10 hours

Giải thích: "The battery lasts about ten hours."

L10. On which day will the delivery arrive?

Answer: thursday / on thursday

Giải thích: "Could you check the delivery when it arrives on Thursday?"

Listening transcript — Part B

Megan: Hi Jack, it's Megan. Before the meeting, let me tell you about the new laptops for the sales team. Each one has a two point six gigahertz quad-core processor, sixteen gigabytes of memory and a one terabyte solid state drive.

Megan: There's no optical drive, so if anyone needs to use a DVD, they'll need an external drive. The screen is fourteen inches, and the laptops are very light, so they're easy to carry. They have three USB ports and a headphone socket, but there's no Ethernet connector, so staff will have to use the wi-fi in the office. The battery lasts about ten hours. Each laptop also comes with a bag and a wireless mouse, so please check that those are in the boxes too.

Megan: Could you check the delivery when it arrives on Thursday? The supplier is sending twenty laptops, and I'd like you to make sure they're all there. If anything is missing, please phone the supplier straight away and let me know before the end of the day. Thanks!

Instruction email to Daniel

You are an IT support technician. Daniel, a trainee in the marketing department, has a second monitor on his desk but does not know how to set it up. Write an email to Daniel explaining the steps, using the notes below. In your email you must use:
- imperatives with sequence words;
- at least one softener (could you…?, just);
- at least one sentence with two objects (plug … into …, connect … to …);
- at least one reason or purpose (to…, so that…, because…).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- connect the monitor cable to the video socket on the computer
- plug the monitor's power cable into a power socket / switch on the monitor
- right-click on the desktop / select 'Display settings'
- choose 'Extend these displays' / click 'Apply' so that you can use both screens
- drag a window onto the second screen to test it
- call the helpdesk if there is a problem / reminder: tidy the cables

Speaking

2.5 points

Các bài mẫu là gợi ý tham khảo, không phải đáp án đúng duy nhất. Part 1 có câu hỏi mở và không có bài mẫu trong bộ dữ liệu.

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. Describe the computer or phone that you use most. What are its specifications? Say the numbers clearly, for example two point four gigahertz or five hundred and twelve gigabytes.

2. How do you connect your phone or laptop to other devices, for example headphones, a speaker or a TV? Use sentences with two objects (plug … into …, connect … to …).

3. Do you prefer open source or proprietary software? Give your reasons using because, for, to or so that.

Part 2 (S2)

Give instructions for using a computer. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A new colleague does not know how to organise files on a computer. Explain how to create a new folder on the desktop, give it a name and move a file into it. Use imperatives, sequence words (first, then, next, after that, finally) and at least one softener (could you…?, just).

- right-click on an empty part of the desktop
- select 'New', then 'Folder'
- type a name for the folder / press Enter
- drag a file onto the folder icon
- double click on the folder to check the file is there

Required language: Imperatives: Right-click…, Select…, Type…; Sequencers: first, then, next, after that, finally; Softeners: Could you…?, just.

Sample response

> OK, it's quite easy to make a new folder. First, just right-click on an empty part of the desktop. A menu will appear. Then select 'New', and after that choose 'Folder'. A new folder icon will appear on the desktop. Next, type a name for the folder, for example 'Project reports', and press Enter. Now could you find the file that you want to move? Click on it, hold the mouse button down and drag it onto the folder icon. Then let go of the button. Finally, double click on the folder to open it and check that the file is inside. If you want to move more files, just do the same again.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You are a technician at a language school. Tomorrow a teacher is giving a hybrid lesson from a classroom computer: some students will be in the classroom, and other students will join online from home. Explain what equipment the teacher needs, how to connect each item and why each one is needed. Use sentences with two objects (plug … into …, connect … to …, unplug … from …) and reason or purpose (to…, so that…, because…, for…).

- a headset with a microphone: plug it into a USB port / so that the online students can hear the teacher clearly
- a projector: connect it to the video socket / to show the online students on the wall for the class in the room
- speakers: plug them into the audio socket / so that the students in the room can hear the online students
- after the lesson: unplug everything from the computer / lock the cupboard

Required language: Sentences with two objects: plug the headset into the USB port; connect the projector to the computer; unplug the speakers from the computer; Reason and purpose: to + verb; so that + clause; because + clause; for + noun.

Sample response

> For your hybrid lesson tomorrow, you'll need three pieces of equipment. First, you need a headset with a microphone. Plug the headset into one of the USB ports on the front of the computer, so that the students at home can hear you clearly. Second, you need the projector. Connect the projector to the video socket on the back of the computer to show the online students on the wall. Then the students in the classroom can see them. Third, use the speakers, because the students in the room also need to hear the online students when they speak. Just plug the speakers into the audio socket. After the lesson, please unplug everything from the computer and put it in the cupboard for safety. Then lock the cupboard and bring the key to the IT office.
