Part A

Listen to the phone call and choose the best answer A, B, C or D (Questions L1–L5).

Grace, an office manager, phones Sam, a salesperson at a software company, to ask about project management software.

L1. Why is Grace phoning TaskPoint?

A. To complain about a problem
B. To find out about their software
C. To sell them accounting services
D. To ask for technical support

L2. How much does the Business level cost?

A. $8 per user each month
B. $12 per user each month
C. $15 per user each month
D. $180 per user each month

L3. What do Business level users get that Team level users do not?

A. A mobile app
B. Planning tools
C. Telephone support
D. A free trial

L4. How long is the trial period?

A. Thirty days
B. Twelve days
C. Fifteen days
D. Eight days

L5. What does Grace decide to do?

A. Buy the Business level today
B. Try the Team level first
C. Phone again next month
D. Buy twelve mobile phones

Part B

Listen to the presentation and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

An IT consultant gives a short presentation to a travel agency about new laptops for its sales team.

L6. How many laptop models did the consultant compare?

Answer (maximum 3 words): _____

L7. What is the problem with the cheapest laptop? It is the _____.

Answer (maximum 3 words): _____

L8. How long does the Zenith's battery last?

Answer (maximum 3 words): _____

L9. What does the consultant recommend buying for each laptop?

Answer (maximum 3 words): _____

L10. In which month will the supplier's prices go up?

Answer (maximum 3 words): _____

Reading

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. The ability of different files, programs or devices to work together.

B. The total of the purchase price and later costs of using an item.

C. A building used to house computer systems and their storage.

D. A promise to repair a product beyond the standard guarantee.

E. A model with a free basic version and a paid version with more features.

F. A device used to take information from a memory card.

R1. Extended warranty _____

R2. Card reader _____

R3. Total cost of ownership (TCO) _____

R4. Freemium pricing _____

R5. Compatibility _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. This laptop ($650) is _____ expensive than that one ($900).

A. more
B. fewer
C. less
D. the least

R7. The old printer is not as _____ as the new one.

A. speed
B. faster
C. fastest
D. fast

R8. Which tablet has _____ storage of the three?

A. the most
B. more
C. as many
D. the same

R9. Could you tell me how much _____?

A. does the Premium plan cost
B. the Premium plan costs
C. costs the Premium plan
D. is the Premium plan cost

R10. I recommend _____ we choose the low-cost option for now.

A. to
B. that
C. for
D. about

R11. How much did you spend _____ the new headset?

A. at
B. from
C. to
D. on

R12. I think it is best _____ read the user reviews before buying.

A. to
B. for
C. than
D. with

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. A laptop bag is a useful IT _____ when you travel.

A. software
B. server
C. accessory
D. licence

R14. With _____ pricing, you pay more for a more complicated version of a program and less for a simpler version.

A. tiered
B. traditional
C. unlimited
D. shared

R15. The new version of the app will _____ next month, so we can download it then.

A. turn off
B. log out
C. try out
D. come out

R16. Every computer that connects to the internet needs a unique _____ address.

A. USB
B. IP
C. CAD
D. PDF

R17. The training centre charges a registration _____ of $50 before the course starts.

A. licence
B. tier
C. fee
D. forum

R18. Many CAD packages can produce three-dimensional, or _____, models.

A. 2-D
B. 3-D
C. CPU
D. USB

R19. The server has very high _____ because it is working almost all the time.

A. fee
B. licence
C. accessory
D. uptime

R20. A user who pays every month usually has a _____ plan.

A. traditional
B. one-off
C. subscription
D. trial

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **Choosing CAD Software at BlueLine Design**
>
> BlueLine Design is a small engineering company with three designers. The company needs computer-aided design, or CAD, software to prepare technical drawings for its clients. At the moment, the designers draw most plans by hand, which takes a long time. Its manager, Nina, has asked the team to compare two packages before buying anything.
>
> The first package, DrawLite, is open source software, so it costs nothing. It is very good for simple 2-D drawings, but it has only a few modelling tools, and it becomes slow when designers work on very large projects. There is no telephone support, so users ask questions on an online forum instead. Experienced users there usually reply within a day.
>
> The second package, CADWorks Pro, costs $35 per user each month. It includes advanced modelling tools, faster performance with large projects, technical support by telephone and online training. For some clients, these features will be important. However, three monthly subscriptions come to $105 a month, and that is a lot of money for a company of BlueLine's size.
>
> Nina asked the designers what kind of work they usually do. Most of their projects are simple 2-D plans for local builders, and only one client has asked for detailed models in the last year. Because of this, she recommends trying DrawLite for the next two months. If they start working with a manufacturer that needs detailed models, they can consider CADWorks Pro later. The designers agree to review the decision after the trial.

R21. Why does BlueLine need CAD software?

- **A.** To hold online meetings
- **B.** To prepare technical drawings
- **C.** To print marketing leaflets
- **D.** To build its own website

R22. What is one advantage of DrawLite?

- **A.** It costs nothing.
- **B.** It has telephone support.
- **C.** It includes online training.
- **D.** It has advanced modelling tools.

R23. What is one disadvantage of DrawLite?

- **A.** It cannot make any drawings.
- **B.** It costs $35 per month.
- **C.** It needs three separate servers.
- **D.** It is slow with very large projects.

R24. How much would CADWorks Pro cost BlueLine each month?

- **A.** $35
- **B.** $70
- **C.** $105
- **D.** $135

R25. Why does Nina recommend DrawLite for now?

- **A.** Most projects are simple 2-D plans.
- **B.** The designers prefer online forums.
- **C.** CADWorks Pro has no training.
- **D.** A manufacturer asked for DrawLite.

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **A Website for a Bike Shop**
>
> Kim is building a small website for a local bike shop. She wants customers to find the shop's contact details and read short descriptions of its services. The website will not receive thousands of visitors each day. Before she makes a recommendation, Kim compares shared hosting and dedicated hosting.
>
> With shared hosting, the bike shop's website will be stored on a server with several other websites. This is usually a low-cost solution, although pages may load more slowly when the server is busy. With dedicated hosting, one customer has a whole server for its website. This can give faster performance and more control, but the monthly fee is normally higher.
>
> The shop has a small budget. First, Kim checks the support service and the expected uptime of three hosting companies. After that, she recommends a shared hosting plan with enough disk space and monthly bandwidth for a simple site. She tells the owner that a more expensive plan would be useful only if the website became much busier.

R26. Kim is developing a website for a bike shop.

☐ True ☐ False

R27. The shop expects thousands of visitors every day.

☐ True ☐ False

R28. With shared hosting, the shop's website is the only site on its server.

☐ True ☐ False

R29. Dedicated hosting normally has a higher monthly fee.

☐ True ☐ False

R30. Kim checks the support and uptime before she recommends a plan.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. A card reader and a spare battery can increase the total cost of ownership of a digital camera.

W32. The Basic hosting plan is cheaper than the Premier plan, but it offers less bandwidth.

W33. Could you tell me whether this CAD package is compatible with our files?

W34. With a freemium pricing model, users can try a basic version before paying for extra features.

W35. I recommend choosing shared hosting because the company has a small website and a limited budget.

Part B: Instruction email

You are an IT officer. The company has chosen DataVault, an online backup service, for its 20 staff. Laura, the office manager, needs to set it up. Write an email to Laura explaining the steps, using the notes below. In your email you must use:
- at least two comparatives or superlatives (more … than, cheaper than, the safest);
- at least one recommendation (I recommend…, I think it's best to…);
- at least one indirect question (Could you let me know whether…?);
- the verbs cost or come to to talk about the price.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- DataVault: more storage than SafeCopy
- open the DataVault website / sign in with the company account
- add the 20 staff / $6 per user a month (total $120)
- choose the folders to back up / recommend 'Daily backup' (the safest option)
- run the first backup / check the report
- ask whether Finance has received the invoice
- reminder: sign out

Required language: Comparatives and superlatives (at least two): more … than, cheaper than, the safest; Recommendations (at least one): I recommend + -ing / that we + verb; I think it's best to…; Indirect questions (at least one): Could you let me know whether…?; Talking about money: cost, come to.

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Laura

Date: _____

Subject: _____

Hi / Dear Laura,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. Compare two phones, laptops or other devices that you know. Which one is better for a student, and why? Use comparatives and superlatives (cheaper than, as … as, the best).

2. How much do you spend on technology each month, for example on your phone plan, internet or apps? Use cost, spend, pay or come to.

3. Imagine you want to buy a new laptop. What would you ask the shop assistant? Ask at least two indirect questions (Could you tell me…? / Do you know whether…?).

Part 2 (S2)

Compare the products and give a recommendation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A friend works as a freelance graphic designer and needs online storage for large design files. Compare the three cloud storage plans in the cues and recommend one. Use comparatives and superlatives, and at least one recommendation structure (I recommend…, I think it's best to…, In my opinion, you should…).

- Lite: $2 a month / 50 GB / web support only
- Plus: $6 a month / 500 GB / email support
- Pro: $15 a month / 2 TB / telephone support
- Your friend's design files: about 300 GB now, growing every month

Required language: Comparatives and superlatives: cheaper than, more storage than, the most expensive, as … as; Recommendations: I recommend + -ing / that you + verb; I think it's best to…; you should….

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Last week you bought equipment for a new employee in your department. Your manager wants to know how much everything cost. Use the receipt in the cues to explain the costs. Talk about money with cost, come to, spend and pay, say the prices clearly, and compare at least two items.

- laptop: $899
- laptop bag: $45
- wireless mouse: $25
- two-year support plan: $120
- everything together: $1,089 (budget: $1,200)

Required language: Talking about money: The laptop cost…; Everything came to…; We spent … on…; We paid…; Saying prices: eight hundred and ninety-nine dollars; one thousand and eighty-nine / ten eighty-nine dollars; Comparatives: The mouse was cheaper than the bag..
