Part A

Listen to the phone call and choose the best answer A, B, C or D (Questions L1–L5).

Freya, who is working from home today, phones Dan at IT support.

L1. What problem is Freya having?

A. She can't log in to her email.
B. Her laptop won't switch on.
C. Her router is broken.
D. The picture in her video calls keeps freezing.

L2. Where is Freya sitting during the call?

A. In her bedroom upstairs
B. In the living room
C. In the IT office
D. Next to the router

L3. Why can't Freya move closer to the router?

A. The router is in the IT office.
B. Her children are watching TV next to it.
C. Her laptop cable is too short.
D. Her son is sleeping in that room.

L4. According to Dan, what will make the picture much better during Freya's call?

A. Switching off the TV
B. Restarting her laptop
C. Her son stopping his online game
D. Buying a new router

L5. What will Dan give Freya if she comes to the office tomorrow?

A. A powerline adapter
B. A new laptop
C. A long network cable
D. A faster router

Part B

Listen to the radio programme and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Laura presents a short technology programme about a new mobile app for train passengers.

L6. What is the name of the new app?

Answer (maximum 3 words): _____

L7. What does the ticket appear as on your phone?

Answer (maximum 3 words): _____

L8. What does the app send you if your train is late?

Answer (maximum 3 words): _____

L9. How much space does the app need on your phone?

Answer (maximum 3 words): _____

L10. What should you take with you on a long journey?

Answer (maximum 3 words): _____

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. A list of goods that have been supplied or work that has been done, showing how much you owe for them.

B. A circuit that connects each computer on a network to several others.

C. A machine that puts a new supply of electricity into a battery.

D. A computer program that tells you when you have spelled a word wrongly.

E. A special word or picture on a web page that you click on to move quickly to another page or another part of the same page.

F. To change something to make it more suitable for you, or to make it look different from things of a similar type.

R1. Spell checker _____

R2. Invoice _____

R3. Customise _____

R4. Mesh _____

R5. Link _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. Our technician _____ the servers every Sunday night, so the website is sometimes slow then.

A. is updating
B. updates
C. update
D. updating

R7. '_____ the password for the guest wi-fi?' 'Yes, it's on the card at reception.'

A. Are you knowing
B. Does you know
C. Do you know
D. You knowing

R8. A router is a device _____ sends data from one network to another.

A. who
B. what
C. where
D. that

R9. The engineer _____ fixed our network yesterday works for a company in Da Nang.

A. who
B. which
C. what
D. where

R10. If you _____ a file to the Recycle Bin, you can still restore it.

A. will move
B. move
C. moves
D. moving

R11. If the printer runs out of paper again tomorrow, I _____ more.

A. order
B. will order
C. ordered
D. ordering

R12. We bought a new printer last week. Unfortunately, _____ printer is already broken.

A. a
B. an
C. any
D. the

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. Write a short, clear _____ so that people know what your email is about before they open it.

A. attachment
B. signature
C. subject line
D. recipient

R14. Please _____ the old files that you don't need any more, because the server is nearly full.

A. post
B. delete
C. follow
D. sign

R15. The company _____ a message on its website to tell customers about the new opening hours.

A. posted
B. deleted
C. signed
D. followed

R16. All our shared files are stored on the main _____, which controls the other computers on the network.

A. dongle
B. GPS
C. browser
D. server

R17. All the computers in our building are on the same _____, so we can share files and printers.

A. LAN
B. GPS
C. OCR
D. dongle

R18. You can _____ your work files from home if you log in to the company website.

A. follow
B. access
C. tag
D. report

R19. The taxi app shows your exact _____ on a map, so the driver can find you easily.

A. feature
B. function
C. location
D. record

R20. One useful _____ of this phone is that you can unlock it with your fingerprint.

A. guideline
B. recipient
C. record
D. feature

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **Less Email, More Work**
>
> Two years ago, staff at Brightline Insurance in Bristol were receiving about 120 emails a day. Many of these messages were copies of conversations which did not really concern them. A survey showed that employees spent nearly three hours a day reading and answering email, and many people were checking their inbox late at night.
>
> The company's managers decided to make some changes. First, they introduced a chat app for short questions. If someone needs a quick answer, they now send a chat message instead of an email. Email is only for longer messages and for messages that go to customers.
>
> Second, the company set a size limit for attachments. Files bigger than 10 MB now go into a shared folder on the server instead. Third, the company's email server holds messages that are sent after seven in the evening and delivers them the next morning at eight. Managers can still send urgent messages at night, but they have to mark them as urgent.
>
> The results are impressive. Staff now receive about forty emails a day, and they spend about one hour a day on email. In a second survey, 80 per cent of employees said that they felt less stressed. However, some staff say that the chat app is now becoming a problem, because it sends them a notification every few minutes. The company is considering a quiet hour every afternoon, when nobody can send chat messages.

R21. How many emails a day did staff receive two years ago?

A. About 40
B. About 80
C. About 120
D. About 300

R22. What do staff use the chat app for?

A. Short questions
B. Messages to customers
C. Long reports
D. Urgent messages at night

R23. What happens to an ordinary email that someone sends at nine in the evening?

A. The server deletes it.
B. It goes to a manager first.
C. It is marked as urgent.
D. It arrives the next morning at eight.

R24. How much time do staff spend on email now?

A. About one hour a day
B. Nearly three hours a day
C. About forty minutes a day
D. About eight hours a week

R25. Why are some staff unhappy with the chat app?

A. It is too expensive.
B. It sends notifications every few minutes.
C. Customers cannot use it.
D. It does not work in the afternoon.

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **Browse Safely: Five Simple Tips**
>
> 1. Look at the address bar. If a website address starts with https, the connection between your browser and the website is encrypted. Never type your card details on a page whose address only

> starts with http.
>
> 2. Keep your browser up to date. Most browsers update themselves automatically, but if yours asks you to restart it, do it as soon as possible.
>
> 3. Be careful with pop-up windows. If a pop-up on a website says that your computer has a virus and asks you to phone a number, close it. Real antivirus companies never ask you to phone them from a pop-up on a website.
>
> 4. Use private browsing on shared computers. If you use a private window, the browser does not save your history or your passwords when you close it. However, private browsing does not hide what you do from your employer or your internet provider.
>
> 5. Clear your browsing data from time to time. This removes old cookies, which are small files that websites use to remember you. You will need to log in to some websites again afterwards.

R26. If a website address starts with https, the connection is encrypted.

☐ True ☐ False

R27. Most browsers need the user to install updates by hand.

☐ True ☐ False

R28. Real antivirus companies sometimes ask you to phone them from a pop-up on a website.

☐ True ☐ False

R29. In a private window, the browser does not save your history when you close it.

☐ True ☐ False

R30. Private browsing hides what you do from your employer.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. At the moment, our technicians are replacing the old cables with a faster wireless network.

W32. A bookmark is a quick way to return to a website that you visit often.

W33. If you share your password with a colleague, you will put the company's data at risk.

W34. The app sends an invoice to the customer as soon as the work is finished.

W35. If the room is dark, the phone automatically makes the screen less bright.

Part B: Instruction email

You are an IT officer. Your company is moving to a new email system this month. Ellie, a sales manager, has asked how to set up her work email on her new phone. Write an email to Ellie explaining the steps, using the notes below. In your email you must use:
- the present continuous at least once for something that is happening now or around now (We're moving to…);
- at least one relative clause with which, that or who;
- at least one zero or first conditional sentence (If + present simple, present simple / will + verb).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- this month: the company / move to a new email system
- open Settings / select 'Accounts' (the menu which lists all your accounts)
- tap 'Add account' / choose 'Exchange'
- enter your work email address and password
- choose what to sync (if you tick Calendar, your meetings will appear too)
- if the phone asks for a server address: type mail.brightway.com
- reminder: delete the old email account when you've finished

Required language: Present continuous for something happening now or around now: We're moving to a new email system; Relative clauses with which, that or who: 'Accounts', which lists all your accounts; Zero or first conditional: If the phone asks for a server address, type… / it will…; Imperatives with sequence words for the steps.

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Ellie

Date: _____

Subject: _____

Hi / Dear Ellie,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. How do you usually use the internet for your studies, and what are you using it for this week? Use the present simple for habits and the present continuous for things that are happening now or this week.

2. What happens if you turn on flight mode on your phone? What will you do if your phone's storage is full next week? Use zero and first conditional sentences (If…, the phone… / If…, I will…).

3. Describe a person who often helps you with technology. Use relative clauses with who, which or that (She's a friend who…, It's a laptop that…).

Part 2 (S2)

Explain some email terms. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A new colleague has never used email at work. Explain what each part of an email in the cues is and why it is useful. Use relative clauses with which, that or who (The recipient is the person who…, An attachment is a file which…).

- subject line
- recipient
- copy (cc)
- attachment
- signature

Required language: Relative clauses with which, that or who: The recipient is the person who…, An attachment is a file which….

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You are phoning the IT helpdesk because your web browser is behaving strangely today. Explain what you usually do with the browser and what is happening now. Use the present simple for your normal routine, the present continuous for what is happening at the moment, and state verbs in the simple form (I don't know…, I need…, I want…).

- normal routine: open the company intranet every morning / use the browser for online orders
- now: the order page is showing everything in the wrong place
- now: the Submit button isn't working / the browser is running very slowly with twenty tabs open
- you don't know what is wrong / you need the order page for a customer today

Required language: Present simple for routines: I usually open…, I use…; Present continuous for things happening now: The browser is showing…, Pages are loading…; State verbs in the simple form: I don't know…, I need…, I want….
