PRACTICE TEST FOR INFORMATION TECHNOLOGY — UNIT 7: Development | TEST B

Đề AI Time allowed: 90 minutes

ANSWER KEY & REFERENCE RESPONSES

Listening: answers and transcripts

Part A

Nadia, a project manager at a software company, gives Mr Grant, the owner of a chain of bakeries, an update on his new ordering app.

L1. What are the programmers working on now?

Answer: B — The order form

Giải thích: Nadia nói giai đoạn thiết kế đã xong tuần trước "and the programmers are working on the order form now".

L2. When is Nadia due to show Mr Grant the first version?

Answer: A — On 12 May

Giải thích: "We're due to show you the first version on the twelfth of May". 20/6 là ngày mở cửa hàng mới; cuối tháng 6 kết thúc kiểm thử; 1/7 là ngày ra mắt.

L3. Who will test the app first?

Answer: C — Ten regular customers

Giải thích: "we plan to start testing with ten of your regular customers".

L4. Why is Mr Grant unhappy about the date when the app goes live?

Answer: D — His new shop opens before the app is ready.

Giải thích: Cửa hàng mới ở Leeds mở ngày 20/6, trước ngày ra mắt ứng dụng 1/7, mà ông muốn khách dùng ứng dụng ở đó.

L5. What does Mr Grant decide?

Answer: A — To keep the July date

Giải thích: Ông không muốn trả thêm 3.000 bảng để thuê thêm lập trình viên: "Let's keep the July date".

Listening transcript — Part A

Grant: Hi Nadia. How's the ordering app going?

Nadia: Very well, thanks. The design stage finished last week, and the programmers are working on the order form now.

Grant: Good. When can I see something?

Nadia: We're due to show you the first version on the twelfth of May. Are you free that afternoon?

Grant: Let me check. Yes, I'm free after two.

Nadia: Great. Then we're meeting at your office at half past two. After that, we plan to start testing with ten of your regular customers.

Grant: Only ten customers? Why not more?

Nadia: Ten is enough for the first test. We need to find the biggest problems quickly. The full testing stage is scheduled to finish at the end of June.

Grant: And when will the app go live?

Nadia: It's scheduled to go live on the first of July.

Grant: Hmm. That's later than I hoped. We're opening our new shop in Leeds on the twentieth of June, and I wanted customers to use the app there.

Nadia: I understand. If you want, we can add two more programmers, but that would cost an extra three thousand pounds.

Grant: No, I don't want to spend more money. Let's keep the July date.

Part B

Marco, a software developer, explains how the program for a smart car park works.

L6. What colour is the light above a space when a car is parked there?

Answer: red / it is red / it's red / red light / it turns red / turns red

Giải thích: "When a car parks in a space, the sensor makes the light above it turn red."

L7. How often does the program update the number of free spaces?

Answer: every ten seconds / every 10 seconds / ten seconds / 10 seconds

Giải thích: "The program updates this number every ten seconds."

L8. What stays closed when all the spaces on a level are full?

Answer: the barrier / barrier / its barrier / the level barrier

Giải thích: "the program causes the barrier to that level to stay closed".

L9. What do drivers use to pay?

Answer: the app / app / an app / their phones / phones / the phone app / phone app / their phone / mobile app / the mobile app

Giải thích: "Drivers pay with the app on their phones."

L10. After what time do the lights in empty areas switch off?

Answer: eleven o'clock / eleven / 11 / 11 o'clock / 11 pm / 11pm / eleven pm / eleven at night / 11 p m / eleven p m / 11 at night

Giải thích: "After eleven o'clock at night, the program causes the lights in empty areas to switch off".

Listening transcript — Part B

Marco: Hello, everyone. I'm going to explain how our smart car park program works. There's a sensor above each parking space. When a car parks in a space, the sensor makes the light above it turn red. When the space is empty, the light is green.

Marco: At the entrance, a large screen shows how many spaces are free on each level. The program updates this number every ten seconds. If all the spaces on one level are full, the program causes the barrier to that level to stay closed, so drivers go straight up to the next level.

Marco: Drivers pay with the app on their phones. When a driver pays, the app makes the exit barrier open automatically, so nobody needs a paper ticket.

Marco: One more thing. After eleven o'clock at night, the program causes the lights in empty areas to switch off, and this saves a lot of electricity. Are there any questions?

Reading: answers and explanations

Matching (R1–R5)

R1. Release candidate

Answer: C — A beta version of software that could become the final product if no serious problems are found.

Giải thích: Release candidate (bản ứng viên phát hành) là bản beta có thể trở thành sản phẩm cuối cùng nếu không phát hiện lỗi nghiêm trọng.

R2. Pop-up menu

Answer: E — A list of things you can ask a computer to do, which can appear suddenly on the screen.

Giải thích: Pop-up menu (menu bật lên) là danh sách lệnh xuất hiện bất ngờ trên màn hình khi đang dùng máy.

R3. Search ranking

Answer: A — A position in the results produced by a search engine.

Giải thích: Search ranking (thứ hạng tìm kiếm) là vị trí trong kết quả do công cụ tìm kiếm trả về.

R4. PHP

Answer: D — A computer language first designed to produce web pages that change as a result of what the user does.

Giải thích: PHP là ngôn ngữ máy tính ban đầu được thiết kế để tạo trang web thay đổi theo thao tác của người dùng.

R5. Navigation chart

Answer: F — A simple picture or plan that shows which way you need to go to move from one place to another.

Giải thích: Navigation chart (sơ đồ điều hướng) là hình hoặc bản vẽ đơn giản chỉ đường đi từ chỗ này sang chỗ khác. Định nghĩa B là của robot, không có trong danh sách thuật ngữ.

Grammar (R6–R12)

R6. The client wants us _____ a contact form to every page of the website.

Answer: C — to add

Giải thích: Nêu yêu cầu: want + tân ngữ + to-infinitive: "wants us to add".

R7. Every user _____ to change their password every three months.

Answer: B — has

Giải thích: Chỉ "have to" đi với "to": "has to change" (phải đổi). "must", "should", "can" là động từ khuyết thiếu, theo sau là động từ nguyên mẫu không có "to".

R8. All customer payments _____ by a secure system.

Answer: D — are processed

Giải thích: Thanh toán được hệ thống xử lý (có "by" chỉ tác nhân) nên dùng bị động hiện tại: are + V3 (are processed).

R9. The app _____ by users from our website or from the app store.

Answer: A — can be downloaded

Giải thích: Bị động với động từ khuyết thiếu: can + be + V3 (can be downloaded). Ứng dụng không tự tải về được nên không dùng chủ động "can download".

R10. A bug in the last update made the screen _____ black.

Answer: B — go

Giải thích: make + tân ngữ + động từ nguyên mẫu không "to": "made the screen go black".

R11. Heavy traffic on the server caused the website _____ very slowly.

Answer: D — to load

Giải thích: cause + tân ngữ + to-infinitive: "caused the website to load very slowly".

R12. We _____ scheduled to launch the new app next Tuesday.

Answer: A — are

Giải thích: Lịch trình: be scheduled to + V (We are scheduled to launch…).

Vocabulary (R13–R20)

R13. Before writing the requirements, the analyst _____ ten users about their daily work.

Answer: C — interviewed

Giải thích: Interview (phỏng vấn) là đặt câu hỏi trong một buổi gặp để tìm hiểu thông tin.

R14. This spreadsheet can _____ how long each stage of the project will take.

Answer: A — calculate

Giải thích: Calculate (tính toán) là dùng con số để tìm ra chi phí hoặc thời gian.

R15. If you have a problem with your order, please _____ our support team by email.

Answer: B — contact

Giải thích: Contact (liên hệ) là viết thư hoặc gọi điện cho ai đó.

R16. Customers can _____ concert tickets online and print them at home.

Answer: D — purchase

Giải thích: Purchase (mua) là từ trang trọng của buy.

R17. Your password is _____ information, so never share it with anyone.

Answer: A — private

Giải thích: Private (riêng tư, bí mật) là thông tin cá nhân không để người khác biết. Public là công khai, trái nghĩa.

R18. This laptop is very _____: you can use it as a tablet, a notebook or a drawing board.

Answer: C — versatile

Giải thích: Versatile (đa năng) là có nhiều công dụng khác nhau.

R19. The website looks good, but the _____ is out of date: some of the prices are from last year.

Answer: B — content

Giải thích: Content (nội dung) là thông tin chứa trong trang web, tách khỏi phần mềm vận hành trang web.

R20. The program stops because one _____ in the code tells the computer to divide a number by zero.

Answer: D — instruction

Giải thích: Instruction (lệnh) là câu lệnh cho máy tính biết phải làm gì.

Reading comprehension (R21–R25)

R21. Why does CityBikes want an app?

Answer: B — Cards are often lost and the station machines are old.

Giải thích: Đoạn 1: "the cards are often lost, and the machines at the stations are getting old".

R22. How will customers rent a bike with the app?

Answer: A — By scanning a code on the bike

Giải thích: Đoạn 2: "The managers want customers to rent a bike by scanning a code on the bike with their phone."

R23. What do customers have to do before their first ride?

Answer: C — Create an account and add a bank card

Giải thích: Đoạn 2: "Customers have to create an account and add a bank card before their first ride."

R24. Which feature did the managers decide is not necessary at the beginning?

Answer: D — A dark mode for night riding

Giải thích: Đoạn 3: quản lý quyết định chế độ tối "is not necessary at the beginning".

R25. What important rule do the managers have?

Answer: B — A customer cannot rent a second bike before returning the first.

Giải thích: Đoạn 4: "the app has to stop a customer from renting a second bike before the first one is returned".

True / False (R26–R30)

R26. The SmartBell program is updated automatically every month.

Answer: T — True

Giải thích: Đoạn 1: "its program is updated automatically every month".

R27. During the day, the light switches on when someone walks near the door.

Answer: F — False

Giải thích: Đoạn 3: "the light does not switch on during the day".

R28. The videos are stored online for one month.

Answer: F — False

Giải thích: Đoạn 3: video được lưu "for fourteen days, and then they are deleted".

R29. A mistake in an update caused some doorbells to restart every hour.

Answer: T — True

Giải thích: Đoạn 4: "a mistake in an update caused some doorbells to restart every hour".

R30. The company needed more than a week to fix the problem.

Answer: F — False

Giải thích: Đoạn 4: công ty "fixed the problem within two days".

Translation (W31–W35)

W31. The release candidate will be given to a small group of customers next week.

Bản dịch tham khảo: Bản ứng viên phát hành sẽ được giao cho một nhóm nhỏ khách hàng vào tuần tới.

W32. Our manager wants the website to load in less than two seconds.

Bản dịch tham khảo: Quản lý của chúng tôi muốn trang web tải xong trong vòng chưa đến hai giây.

W33. Entering a wrong password three times causes the account to lock for fifteen minutes.

Bản dịch tham khảo: Nhập sai mật khẩu ba lần sẽ khiến tài khoản bị khoá trong mười lăm phút.

W34. We are scheduled to present the new design to the client on Friday afternoon.

Bản dịch tham khảo: Theo lịch, chúng tôi sẽ trình bày thiết kế mới cho khách hàng vào chiều thứ Sáu.

W35. Users have to enter their email address before they can download the free guide.

Bản dịch tham khảo: Người dùng phải nhập địa chỉ email trước khi có thể tải hướng dẫn miễn phí.

Instruction email to Anna

You are a web developer. Anna, the new marketing assistant, needs to publish a news article on the company website for the first time. Write an email to Anna explaining how to do it, using the notes below. In your email you must use:
- at least two of should, have to and need to;
- at least one passive sentence (… is shown…, … can be found…);
- be due to or be scheduled to at least once.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- log in to the website's admin page
- click 'New article' / type the title and the text
- add a photo / the photo has to be smaller than 2 MB
- choose the 'News' category
- click 'Preview' / check the article on a phone
- click 'Publish' / the article: scheduled to appear on the home page at 9 a.m. tomorrow
- reminder: log out of the admin page

Model email

> From: Hoang Gia Huy
> To: Anna
> Date: 2nd June
> Subject: Publishing a news article
>
> Hi Anna,
>
> It should be quite easy to publish your article.
> First, log in to the admin page.
> Then, click 'New article' and type the title and text.
> Next, add a photo. It has to be under 2 MB.
> After that, choose 'News' and click 'Preview'. You should check it on a phone.
> Finally, click 'Publish'. The article is added to the News list and is scheduled to appear on the home page at 9 a.m. tomorrow.
> Don't forget to log out of the admin page when you've finished.
>
> Best wishes,
> Hoang Gia Huy
> Web Developer
> IT Department

Speaking

2.5 points

Các bài mẫu là gợi ý tham khảo, không phải đáp án đúng duy nhất. Part 1 có câu hỏi mở và không có bài mẫu trong bộ dữ liệu.

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. Your university wants a new app for booking study rooms in the library. What should the app do? Use should, have to, need to or want + object + to (I want the app to…).

2. Describe how your university's online learning system is used. Use at least two passive sentences (Lecture notes are uploaded…, Homework is submitted…, Marks can be seen…).

3. Think about a project or assignment that you have to finish this term. Talk about the deadlines and your plans. Use be due to, be scheduled to, plan to or the present continuous for future arrangements.

Part 2 (S2)

Explain the structure of a website. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You designed a website for a new restaurant. Explain to the restaurant owner how the website is organised, using the cues. Use at least four passive sentences (is linked to, is updated, can be booked, are uploaded, is answered).

- home page → linked to four sections: Menu, Book a Table, Photos, Contact
- Menu: updated by the chef every week
- Book a Table: tables booked online, confirmation sent by email
- Photos: uploaded by staff after special events
- Contact: form answered within 24 hours

Required language: The passive (at least four sentences): The home page is linked to…; The menu is updated…; Tables can be booked…; Photos are uploaded….

Sample response

> Let me show you how your website is organised. Everything starts on the home page, which is linked to four main sections: Menu, Book a Table, Photos and Contact. The Menu section is updated by your chef every week, so customers always see the latest dishes. In the Book a Table section, tables can be booked online at any time, and a confirmation is sent to the customer by email. The Photos section is for special events. New photos are uploaded by your staff after each event, so the page always looks fresh. Finally, there's the Contact page. It has a simple form, and every message is answered within twenty-four hours. The website can also be viewed on phones, because most customers look for restaurants on their mobiles.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You are a systems analyst. Yesterday you met the manager of a language centre to discuss a new app for students. Now report the requirements to your development team, using the cues. Use should, have to and need to, and want + object + to-infinitive at least twice (The manager wants the app to…, Teachers want students to…).

- students: check their timetable and room numbers
- teachers: upload homework / students submit it in the app
- manager: students pay course fees online
- the app: must work in Vietnamese and English
- deadline: first version ready in three months

Required language: should, have to, need to for requirements; want + object + to-infinitive (at least twice): The manager wants students to pay…; Teachers want the app to….

Sample response

> Yesterday I met the manager of the language centre, and here are the main requirements for the new app. First, students need to check their timetable and room numbers, so the app should show this information on the first screen. Second, the teachers want the app to manage homework. Teachers want to upload homework, and they want students to submit it in the app, not by email. Third, the manager wants students to pay their course fees online, so we have to include a secure payment system. The app also has to work in both Vietnamese and English. Finally, the manager wants us to deliver the first version in three months, so we need to plan carefully and start next week.
