PRACTICE TEST FOR INFORMATION TECHNOLOGY — UNIT 7: Development | TEST C

Đề AI Time allowed: 90 minutes

ANSWER KEY & REFERENCE RESPONSES

Listening: answers and transcripts

Part A

Tom, a student, shows his teacher, Ms Reed, a quiz app that he wrote for his programming class.

L1. How long does the user have to answer each question?

Answer: C — Twenty seconds

Giải thích: Tom nói "A timer also starts, and the user has twenty seconds to answer." Mười là số điểm và số câu trước khi lỗi xảy ra; mười lăm là số câu hỏi.

L2. What happens when the user chooses the correct answer?

Answer: A — The screen flashes green.

Giải thích: "If the answer is correct, the program makes the screen flash green and adds ten points." Màn hình nháy đỏ khi trả lời sai.

L3. What happens when the timer reaches zero?

Answer: B — The app moves to the next question.

Giải thích: "That causes the app to move to the next question automatically."

L4. Why did the app crash after question ten?

Answer: C — Tom used the wrong number in a loop.

Giải thích: Tom nói lỗi làm ứng dụng bị treo sau câu 10 và "I had used the wrong number in a loop".

L5. What does Ms Reed ask Tom to add?

Answer: D — A high score screen

Giải thích: "Could you add a high score screen?", vì người dùng thường muốn xem điểm cao nhất của mình.

Listening transcript — Part A

Ms Reed: So, Tom, show me how your quiz app works.

Tom: OK. When the user taps Start, the app shows the first question and four answers. A timer also starts, and the user has twenty seconds to answer.

Ms Reed: What happens when the user chooses an answer?

Tom: If the answer is correct, the program makes the screen flash green and adds ten points. A wrong answer makes the screen flash red, but no points are taken away.

Ms Reed: And if the timer reaches zero?

Tom: That causes the app to move to the next question automatically.

Ms Reed: Nice. How many questions are there?

Tom: Fifteen at the moment. They're kept in a separate file, so I can add more easily.

Ms Reed: Good idea. Did you have any problems?

Tom: Yes. At first, a mistake caused the app to crash after question ten. I found it yesterday. I had used the wrong number in a loop.

Ms Reed: Well done. One suggestion: users usually want to see their best score. Could you add a high score screen?

Tom: Sure. I'll add it before the deadline on Friday.

Part B

Helen, a project manager, tells her team about the plan for the next two weeks of a website project for an online shop.

L6. Which pages are the developers starting work on today?

Answer: the shop pages / shop pages / the shop page / shop page

Giải thích: "the developers are starting work on the shop pages today".

L7. Who is coming on Thursday?

Answer: the photographer / photographer / a photographer

Giải thích: "On Thursday, the photographer is coming to take new product photos."

L8. How many days will the customer service team have for testing?

Answer: three / 3 / three days / 3 days

Giải thích: "We plan to give them three days to try everything."

L9. On which date is the client visiting the office?

Answer: the twenty-fifth / twenty-fifth / the 25th / 25th / 25 / the twenty fifth / twenty fifth / on the 25th / on the twenty-fifth / on 25th / on the 25

Giải thích: "The client is visiting our office on the twenty-fifth for a demonstration".

L10. Who should the team send design questions to next week?

Answer: rachel / to rachel

Giải thích: Sam nghỉ phép tuần sau, "so please send any design questions to Rachel instead".

Listening transcript — Part B

Helen: Morning, everyone. Here's the plan for the next two weeks of the website project. The client accepted the new design yesterday, so the developers are starting work on the shop pages today. We're due to finish the shop pages by next Wednesday. Two developers are also fixing some small problems on the contact form this week.

Helen: On Thursday, the photographer is coming to take new product photos. Then, on Friday the twentieth, we're scheduled to start testing with the client's customer service team. We plan to give them three days to try everything.

Helen: The client is visiting our office on the twenty-fifth for a demonstration. It's scheduled to start at two o'clock, so please keep that afternoon free. If testing goes well, the new site is due to go live on the first of next month.

Helen: Finally, Sam is on holiday next week, so please send any design questions to Rachel instead. Thanks, everyone.

Reading: answers and explanations

Matching (R1–R5)

R1. Alpha testing

Answer: B — Testing software to see whether it works properly, done by the company that is writing it.

Giải thích: Alpha testing (kiểm thử alpha) là kiểm thử do chính công ty viết phần mềm thực hiện để xem phần mềm có chạy đúng không.

R2. Line of code

Answer: D — A row of letters or numbers that makes up part of a set of instructions for a computer.

Giải thích: Line of code (dòng mã) là một hàng chữ hoặc số tạo nên một phần của tập lệnh cho máy tính.

R3. Specification

Answer: E — A detailed instruction about how something should be made or what it should do.

Giải thích: Specification (bản đặc tả) là hướng dẫn chi tiết về cách làm ra một thứ hoặc thứ đó phải làm gì.

R4. Premium content

Answer: F — Website information of very high quality that you often need to pay to access.

Giải thích: Premium content (nội dung cao cấp) là thông tin chất lượng cao trên trang web, thường phải trả tiền mới xem được.

R5. Value

Answer: A — A mathematical quantity shown by a letter of the alphabet or a sign.

Giải thích: Value (giá trị) là đại lượng toán học được biểu thị bằng một chữ cái hoặc ký hiệu. Định nghĩa C là của combination (sự kết hợp), không có trong danh sách thuật ngữ.

Grammar (R6–R12)

R6. The new app _____ work on both Android and iPhone.

Answer: B — should

Giải thích: Nêu yêu cầu: should + động từ nguyên mẫu. "ought" phải có "to"; "need", "have" sai hoà hợp với chủ ngữ số ít và còn thiếu "to".

R7. Our users want the search results _____ by price.

Answer: C — to be sorted

Giải thích: want + tân ngữ + to-infinitive; kết quả tìm kiếm được sắp xếp nên dùng dạng bị động: "want the search results to be sorted".

R8. This program _____ by a student in our class last year.

Answer: A — was written

Giải thích: Chương trình được viết bởi một sinh viên (by…), việc đã xảy ra năm ngoái: bị động quá khứ was + V3 (was written).

R9. Customers' passwords _____ in an encrypted form on the server.

Answer: D — are stored

Giải thích: Mật khẩu được lưu (không tự lưu) nên dùng bị động hiện tại: are + V3 (are stored). "stored" đứng một mình thì câu thiếu động từ chính.

R10. Pressing Ctrl and Z makes the program _____ your last action.

Answer: A — undo

Giải thích: make + tân ngữ + động từ nguyên mẫu không "to": "makes the program undo".

R11. A loose cable caused the printer _____ every few minutes.

Answer: B — to stop

Giải thích: cause + tân ngữ + to-infinitive: "caused the printer to stop".

R12. The new laptops for the design team are due _____ next Monday.

Answer: C — to arrive

Giải thích: Lịch trình dự kiến: be due to + động từ nguyên mẫu (are due to arrive).

Vocabulary (R13–R20)

R13. Our team has three _____ who write the programs for the app and one designer who draws the screens.

Answer: B — programmers

Giải thích: Programmer (lập trình viên) là người viết chương trình máy tính.

R14. Our new team leader is very _____: she is full of energy and always has new ideas.

Answer: A — dynamic

Giải thích: Dynamic (năng động) là tràn đầy năng lượng và ý tưởng mới.

R15. In the car factory, a _____ paints each car in less than a minute without any help from people.

Answer: C — robot

Giải thích: Robot (người máy) là máy có thể cử động và làm một số việc thay con người, thường do máy tính điều khiển.

R16. This Wi-Fi network is _____, so anyone in the station can use it.

Answer: D — public

Giải thích: Public (công cộng) là ai cũng dùng được. Private là riêng tư, trái nghĩa.

R17. The report is _____ online, but you cannot edit it or download it.

Answer: A — viewable

Giải thích: Viewable (xem được) là có thể nhìn thấy, ở đây là xem được trên mạng nhưng không sửa hay tải về được.

R18. Making the app work with a very slow internet connection was a real _____ for the team.

Answer: B — challenge

Giải thích: Challenge (thử thách) là việc đòi hỏi kỹ năng, khả năng.

R19. The app crashed because of a _____ in the program, so the developers had to fix it.

Answer: C — bug

Giải thích: Bug (lỗi phần mềm) là lỗi trong chương trình làm nó chạy sai.

R20. Finishing the first working version was an important _____ in the project, so the team celebrated.

Answer: D — milestone

Giải thích: Milestone (cột mốc) là một giai đoạn quan trọng đánh dấu tiến độ của dự án.

Reading comprehension (R21–R25)

R21. What was one problem with the old website?

Answer: B — It did not display well on phones.

Giải thích: Đoạn 1: "It did not display well on phones". Giờ học có nhưng khó tìm, không phải không có.

R22. Who updates the Timetable section?

Answer: A — The reception staff

Giải thích: Đoạn 2: "The Timetable section is updated every day by the reception staff".

R23. What change was made after twenty members tried out the site?

Answer: C — The booking form was made shorter.

Giải thích: Đoạn 3: hội viên chê mẫu đặt lịch quá dài "so it was shortened from twelve boxes to five".

R24. What has happened since the new site was launched?

Answer: D — Online bookings have doubled.

Giải thích: Đoạn 4: "the number of online bookings has doubled, and the reception staff receive far fewer phone calls".

R25. When is the new area for members due to be ready?

Answer: B — In the autumn

Giải thích: Đoạn 4: "This new area is due to be ready in the autumn." Tháng Ba là lúc ra mắt trang web mới.

True / False (R26–R30)

R26. At lunchtime, customers often wait ten minutes to order.

Answer: T — True

Giải thích: Đoạn 1: "At lunchtime, customers often wait ten minutes just to order their food."

R27. The screen needs to accept cash.

Answer: F — False

Giải thích: Đoạn 2: màn hình nhận thẻ và thanh toán qua điện thoại "but it does not need to accept cash".

R28. Each order has to be sent to the kitchen immediately.

Answer: T — True

Giải thích: Đoạn 2: "Each order has to be sent to the kitchen immediately."

R29. The kitchen staff want the system to show how long each order has been waiting.

Answer: T — True

Giải thích: Đoạn 3: "The kitchen staff also want the system to show how long each order has been waiting."

R30. Mr Quang wants the screen to work only in Vietnamese.

Answer: F — False

Giải thích: Đoạn 3: Mr Quang muốn màn hình "work in Vietnamese and English".

Bản dịch và email dưới đây là mẫu tham khảo. Các cách diễn đạt khác đúng ý và đúng yêu cầu vẫn được chấp nhận.

Translation (W31–W35)

W31. Alpha testing is done by our own developers before the software is given to any customers.

Bản dịch tham khảo: Kiểm thử alpha do chính các lập trình viên của chúng tôi thực hiện trước khi phần mềm được giao cho bất kỳ khách hàng nào.

W32. The client wants the app to send a reminder one hour before each appointment.

Bản dịch tham khảo: Khách hàng muốn ứng dụng gửi lời nhắc một giờ trước mỗi cuộc hẹn.

W33. Clicking the company logo makes the browser go back to the home page.

Bản dịch tham khảo: Nhấp vào logo của công ty sẽ làm trình duyệt quay về trang chủ.

W34. The new version of our website is due to go live at the beginning of next month.

Bản dịch tham khảo: Phiên bản mới của trang web dự kiến sẽ chính thức hoạt động vào đầu tháng sau.

W35. All the photos on this website were taken by our own staff.

Bản dịch tham khảo: Tất cả ảnh trên trang web này đều do chính nhân viên của chúng tôi chụp.

Instruction email to Ravi

You are a team leader at a software company. Ravi, a new developer, starts work on the BookIt project tomorrow and needs to set up the project on his laptop. Write an email to Ravi explaining the steps, using the notes below. In your email you must use:
- at least two of should, have to and need to;
- at least one passive sentence (… is given…, … is shown…);
- be due to or be scheduled to at least once.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- sign in to the company code library with your staff account
- download the BookIt project to your laptop
- install the tools / the list is given in the 'Read me' file
- run the app / check that the start screen appears
- if there is an error: a red message is shown / send a screenshot to the team leader
- team meeting: scheduled to start at 10 a.m. on Monday
- reminder: lock your laptop

Model email

> From: Ngo Thanh Long
> To: Ravi
> Date: 9th September
> Subject: Setting up BookIt
>
> Hi Ravi,
>
> It should be quite easy to set up BookIt.
> First, sign in to the company code library with your staff account.
> Then, download the project.
> Next, you need to install the tools. The list is given in the 'Read me' file.
> After that, run the app and check the start screen.
> Finally, if a red error message is shown, you should send me a screenshot.
> Our team meeting is scheduled to start at 10 a.m. on Monday.
> Don't forget to lock your laptop when you've finished.
>
> Best wishes,
> Ngo Thanh Long
> Team Leader
> Software Development Department

Speaking

2.5 points

Các bài mẫu là gợi ý tham khảo, không phải đáp án đúng duy nhất. Part 1 có câu hỏi mở và không có bài mẫu trong bộ dữ liệu.

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. Think about a website that you use often. What should the people who run it change or add? Use should, have to, need to or want + object + to (I want the website to…).

2. Think about a machine at home, for example a washing machine or a microwave. Explain what happens when you press different buttons. Use make + object + verb (makes the door open) or cause + object + to + verb (causes the machine to stop).

3. What events does your class or your university have next month? Use plan to, be due to, be scheduled to or the present continuous for future arrangements.

Part 2 (S2)

Explain the project schedule. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You are the project manager for a new mobile app for a travel agency. Explain the project schedule in the cues to the client. Use be scheduled to, be due to, plan to and the present continuous for future arrangements (We're meeting…).

- design: 3–21 March
- programming: 24 March – 30 April
- testing with ten travel agents: 2–16 May
- launch: 19 May
- next Tuesday: meeting with the client to show the first designs (arranged)

Required language: be scheduled to / be due to + infinitive: Programming is scheduled to start on 24 March; The app is due to be launched on 19 May.; plan to + infinitive: We plan to test the app with ten travel agents.; Present continuous for future arrangements: We're meeting you next Tuesday..

Sample response

> Let me explain the schedule for your new app. The design stage is scheduled to start on the third of March and finish on the twenty-first. We're meeting you next Tuesday to show you the first designs, so you can tell us what you think. After that, programming is scheduled to start on the twenty-fourth of March, and it's due to finish at the end of April. In May, we plan to test the app with ten of your travel agents. Testing is due to take two weeks, from the second to the sixteenth of May. If everything goes well, the app is due to be launched on the nineteenth of May. We plan to send you a short report every Friday, so you always know how the project is going.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Yesterday your company's online shop stopped working from 8.15 a.m. to 9.15 a.m. during a big sale. Your manager asks you what happened. Use the cues to explain the problem and how it was fixed. Use cause + object + to + verb and make + object + verb, and at least two passive sentences (The server was restarted…, The bug was fixed…).

- 8 a.m.: the sale started / ten times more visitors than normal
- too many visitors → the server slowed down
- 8.15 a.m.: the shop stopped working / customers could not pay
- a bug in the payment page → the page reloaded again and again
- 9.15 a.m.: the server restarted by the IT team
- the bug fixed by the developers / an extra server added

Required language: cause + object + to-infinitive: The visitors caused the server to slow down.; make + object + bare infinitive: The bug made the page reload.; The passive (at least two sentences): The server was restarted at 9.15; The bug was fixed by the developers..

Sample response

> Yesterday our big sale started at eight o'clock, and we had ten times more visitors than normal. The large number of visitors caused the server to slow down very quickly. At the same time, there was a bug in the payment page. It made the page reload again and again, so customers couldn't finish their orders. At eight fifteen, the shop stopped working completely. Many customers had clicked the button several times, and this had caused the server to slow down even more. At nine fifteen, the server was restarted by the IT team, and the shop started working again. Later, the bug was fixed by our developers, and an extra server was added. Next time, I think more servers should be prepared before a big sale.
