PRACTICE TEST FOR INFORMATION TECHNOLOGY — UNIT 4: Administration | TEST A

Đề cô Time allowed: 90 minutes

ANSWER KEY & REFERENCE RESPONSES

Listening: answers and transcripts

Part A

Sofia, an IT manager, has just come back from a conference. She asks Ben, her assistant, what happened while she was away.

L1. When did Ben deploy the update to the accounting software?

Answer: B — On Wednesday evening

Giải thích: Ben nói "I deployed it on Wednesday evening, after everyone went home". Thứ Hai là ngày cài quyền cho thực tập sinh, thứ Sáu là ngày cập nhật phần mềm diệt virus.

L2. Why didn't one laptop get the update?

Answer: A — It was switched off.

Giải thích: "One laptop in the sales office was switched off, so it didn't get the update." Ben cài lại vào sáng hôm sau.

L3. What can the interns do with the files in the finance folder?

Answer: B — Open them but not change them

Giải thích: Thực tập sinh có "read-only access" (quyền chỉ đọc): "they can open the files, but they can't change them".

L4. What happened while Ben was updating the antivirus software?

Answer: C — He got an alert about many login attempts.

Giải thích: Trong lúc Ben đang cập nhật phần mềm diệt virus, hệ thống gửi cảnh báo: có người "tried to log in to the director's account forty times during the night" (cố đăng nhập 40 lần trong đêm).

L5. What does Sofia ask Ben to do?

Answer: B — Send her a copy of the alert

Giải thích: Sofia hỏi "could you send me a copy of the alert?". Chính Sofia sẽ nói chuyện với công ty bảo mật (A sai).

Listening transcript — Part A

Sofia: Hi Ben, I'm back! How did everything go while I was at the conference?

Ben: Quite well, thanks. There weren't any big problems.

Sofia: Good. Did you deploy the update to the accounting software?

Ben: Yes, I deployed it on Wednesday evening, after everyone went home. It went smoothly on almost every computer.

Sofia: Almost?

Ben: One laptop in the sales office was switched off, so it didn't get the update. I installed it the next morning before the sales manager arrived.

Sofia: Fine. What about the new interns in the finance department?

Ben: I set their permissions on Monday. They have read-only access to the finance folder, so they can open the files, but they can't change them.

Sofia: Perfect. Any security problems?

Ben: Just one. While I was updating the antivirus software on Friday, the system sent me an alert. Someone tried to log in to the director's account forty times during the night.

Sofia: Forty times! What did you do?

Ben: I blocked that IP address straight away and sent a message to the director.

Sofia: Well done. I'll talk to our security company this afternoon. Before I do that, could you send me a copy of the alert?

Ben: Sure, no problem.

Part B

Helen, the database administrator at a dental clinic, explains the patient database to new receptionists.

L6. How many tables does the database have?

Answer: three / three tables / 3 / 3 tables

Giải thích: Helen nói "The database has three tables: Patients, Appointments and Treatments".

L7. Which field is the primary key in the Patients table?

Answer: patient number / the patient number / unique patient number

Giải thích: Vì nhiều bệnh nhân trùng họ, mỗi người có một mã bệnh nhân riêng: "a unique patient number. That field is the primary key."

L8. What should receptionists use to add new patients?

Answer: new patient form / patient form

Giải thích: "You add new patients by using the New Patient form." Helen dặn không gõ thẳng vào bảng (tables).

L9. When should receptionists print the list of tomorrow's appointments?

Answer: every evening / evening / each evening / in the evening / before going home

Giải thích: "Every evening, before you go home, please print the list of tomorrow's appointments".

L10. Which report prints the list of tomorrow's appointments?

Answer: daily diary report / daily diary / the daily diary

Giải thích: Danh sách lịch hẹn ngày mai được in "by running the Daily Diary report".

Listening transcript — Part B

Helen: Good morning, and welcome to Riverside Dental Clinic. I'm Helen, the database administrator. Before you start work at reception, I'd like to show you how our patient database works.

Helen: The database has three tables: Patients, Appointments and Treatments. Each record in the Patients table holds information about one person, such as given name, family name, date of birth and phone number. Many patients have the same family name, so we give each person a unique patient number. That field is the primary key.

Helen: You add new patients by using the New Patient form. Please don't type information straight into the tables, because it's easy to make mistakes there. When a patient changes their phone number, please update their record on the same day, because we send appointment reminders by text message.

Helen: Every evening, before you go home, please print the list of tomorrow's appointments by running the Daily Diary report. Last month a receptionist forgot to do this, and the next morning nobody knew which patients were coming in.

Helen: Is everything clear so far?

Reading: answers and explanations

Matching (R1–R5)

R1. Crash

Answer: D — An occasion when a computer or a computer system suddenly stops working.

Giải thích: Crash (sự cố treo, sập) là khi máy tính hoặc hệ thống máy tính đột ngột ngừng hoạt động.

R2. Stylus

Answer: F — A thing shaped like a pen, used for writing on a special computer screen.

Giải thích: Stylus là bút cảm ứng, vật có hình dạng như cây bút, dùng để viết trên màn hình máy tính đặc biệt.

R3. Query the database

Answer: A — To ask a question about the data stored in a computer system, in order to retrieve some information.

Giải thích: Query the database (truy vấn cơ sở dữ liệu) là đặt câu hỏi về dữ liệu lưu trong hệ thống để lấy ra thông tin cần thiết.

R4. Subtract

Answer: B — To take (a number or an amount) from a larger number or amount.

Giải thích: Subtract (trừ) là lấy một số hoặc một lượng ra khỏi một số hoặc lượng lớn hơn.

R5. Graphics tablet

Answer: C — A device that allows you to draw on its surface, using a stylus rather than a mouse, with the results appearing on your computer screen.

Giải thích: Graphics tablet (bảng vẽ đồ hoạ) là thiết bị cho phép vẽ trên bề mặt của nó bằng bút stylus thay cho chuột, kết quả hiện trên màn hình. Định nghĩa E là của graphic design (thiết kế đồ hoạ), không có trong danh sách thuật ngữ.

Grammar (R6–R12)

R6. Did you _____ the sales figures in the spreadsheet and _____ any errors?

Answer: C — check / find

Giải thích: Câu hỏi thì quá khứ đơn: Did + chủ ngữ + động từ nguyên mẫu. Cả hai động từ sau "Did you" đều để nguyên mẫu: check, find.

R7. Before _____ the keyboard, always switch off and unplug the computer.

Answer: D — cleaning

Giải thích: Khi hai vế cùng chủ ngữ (bạn lau bàn phím, bạn tắt máy), sau "before" dùng V-ing: "Before cleaning …". "before" là giới từ nên không đi với động từ nguyên mẫu, quá khứ phân từ hay to-infinitive.

R8. After _____ the server room, always lock the door.

Answer: B — leaving

Giải thích: Khi hai vế cùng chủ ngữ (bạn rời phòng, bạn khoá cửa), sau "after" dùng V-ing: "After leaving …".

R9. _____ a report in the database, you can see last month's total sales.

Answer: A — By running

Giải thích: Diễn tả cách làm một việc dùng "by + V-ing": "By running a report" (bằng cách chạy một báo cáo). Sau giới từ "by" phải dùng V-ing, không dùng động từ nguyên mẫu.

R10. By _____ a filter on the Date column, you can see only this month's orders.

Answer: D — using

Giải thích: Sau giới từ "by" dùng V-ing: "By using a filter …" (bằng cách dùng bộ lọc).

R11. The technician found an error in the network settings and _____ it straight away.

Answer: C — corrected

Giải thích: Hai hành động nối tiếp đã xong trong quá khứ, nối bằng "and": found … and corrected (quá khứ đơn, động từ có quy tắc thêm -ed).

R12. While the technicians _____ the network drives, the power suddenly went off.

Answer: A — were checking

Giải thích: Hành động dài đang diễn ra (quá khứ tiếp diễn sau "while") thì bị hành động ngắn xen vào (went off, quá khứ đơn). Chủ ngữ "the technicians" số nhiều nên dùng "were checking".

Vocabulary (R13–R20)

R13. In a spreadsheet, a horizontal line of cells that goes across the page is called a _____.

Answer: D — row

Giải thích: Row (hàng) là dãy ô nằm ngang. Column (cột) là dãy ô theo chiều dọc.

R14. In a database table, a _____ is a single field that uniquely identifies each record, such as a staff ID number.

Answer: B — primary key

Giải thích: Primary key (khoá chính) là trường xác định duy nhất mỗi bản ghi trong bảng, ví dụ mã nhân viên.

R15. Which database object is used as an interface for users to enter data into tables easily?

Answer: C — Form

Giải thích: Form (biểu mẫu) là đối tượng giúp nhập dữ liệu vào bảng dễ dàng. Report dùng để in kết quả; record là một bản ghi và field là một trường trong bảng, không phải giao diện nhập liệu.

R16. When an IT administrator decides who can open or change specific files and folders on a server, they are setting _____.

Answer: A — permissions

Giải thích: Permissions (quyền truy cập) là thiết lập cho biết ai được dùng, mở hay sửa tệp và thư mục. Cụm "set permissions" có trong bài Systems administration.

R17. A systems administrator reads the _____ to see a record of events on the server, for example who logged in and when.

Answer: C — logs

Giải thích: Log (nhật ký hệ thống) là bản ghi chính thức các sự kiện, ví dụ ai đăng nhập lúc nào.

R18. A _____ is a collection of hard drives in a single box accessed through a network, providing flexible storage for all connected computers.

Answer: B — NAS device

Giải thích: NAS (Network Attached Storage) device là bộ nhiều ổ cứng trong một hộp, truy cập qua mạng để các máy tính cùng lưu trữ.

R19. Which part of a laptop do you slide your finger across to move the cursor instead of using a mouse?

Answer: A — Touchpad

Giải thích: Touchpad (bàn di chuột cảm ứng) là bộ phận của laptop dùng ngón tay để di chuyển con trỏ thay cho chuột.

R20. When paper gets stuck inside a printer and stops it from printing, this common problem is called a paper _____.

Answer: D — jam

Giải thích: Paper jam (kẹt giấy) là khi giấy bị kẹt trong máy in khiến máy không in được.

Reading comprehension (R21–R25)

R21. What was Maria's problem before January?

Answer: B — She often made mistakes in her sums.

Giải thích: Đoạn 1: Maria cộng doanh số bằng tay và máy tính bỏ túi, mất khoảng một giờ và "often made mistakes when she was tired".

R22. What did the formula in column D do?

Answer: C — It multiplied the price by the items sold.

Giải thích: Đoạn 2: "a formula into column D that multiplied the price by the number of items". Việc cộng tất cả giá trị là của hàm SUM ở cuối cột D.

R23. Why did Maria check every total with her calculator for two weeks?

Answer: B — She did not trust the spreadsheet at first.

Giải thích: Đoạn 3: "At first, Maria did not trust the spreadsheet. For two weeks, she checked every total with her calculator."

R24. What was wrong with one of Daniel's formulae?

Answer: A — It used the wrong cells.

Giải thích: Đoạn 3: "Daniel chose the wrong cells in one formula", nên tổng của cửa hàng thứ hai thiếu bánh ngọt (không phải tính hai lần).

R25. What did Maria do after comparing the two worksheets?

Answer: D — She stopped making brown bread for one shop.

Giải thích: Đoạn 4: "she stopped making brown bread for the second shop because very few customers bought it there".

True / False (R26–R30)

R26. The problem with the projector happened in the morning.

Answer: T — True

Giải thích: Đoạn 1: sự cố máy chiếu xảy ra "At nine o'clock in the morning".

R27. The technician found that the projector was broken.

Answer: F — False

Giải thích: Đoạn 1: kỹ thuật viên thấy "the projector was working correctly" (máy chiếu vẫn hoạt động bình thường); lỗi là do ai đó dùng sai cáp.

R28. The course started on time.

Answer: F — False

Giải thích: Đoạn 1: khoá học bắt đầu muộn 15 phút ("started fifteen minutes late").

R29. The trainees were listening to the finance director when the sound stopped.

Answer: T — True

Giải thích: Đoạn 2: "While they were listening to the finance director, the sound in two headsets stopped."

R30. Tom asked the IT department to test the headsets every Monday.

Answer: T — True

Giải thích: Đoạn 3: Tom đề nghị phòng IT "test the headsets every Monday morning".

Bản dịch và email dưới đây là mẫu tham khảo. Các cách diễn đạt khác đúng ý và đúng yêu cầu vẫn được chấp nhận.

Translation (W31–W35)

W31. Nero Burning ROM is a professional software solution for burning audio, data, and image files onto optical discs.

Bản dịch tham khảo: Nero Burning ROM là một giải pháp phần mềm chuyên nghiệp để ghi các tệp âm thanh, dữ liệu và hình ảnh lên đĩa quang.

W32. When I typed the date into this spreadsheet cell, it came out as a number instead of a proper date format.

Bản dịch tham khảo: Khi tôi gõ ngày vào ô bảng tính này, nó lại hiện ra thành một con số thay vì đúng định dạng ngày.

W33. Each record in a client database is like a row on a spreadsheet, while each field functions like an individual cell.

Bản dịch tham khảo: Mỗi bản ghi trong cơ sở dữ liệu khách hàng giống như một hàng trên bảng tính, còn mỗi trường có chức năng như một ô riêng lẻ.

W34. While the systems administrator was checking the server logs for system errors, the main network drive crashed.

Bản dịch tham khảo: Trong khi quản trị viên hệ thống đang kiểm tra nhật ký máy chủ để tìm lỗi hệ thống thì ổ đĩa mạng chính bị sập.

W35. Before reinstalling the operating system or replacing the hard drive, make sure to back up all important data to an external NAS device.

Bản dịch tham khảo: Trước khi cài đặt lại hệ điều hành hoặc thay ổ cứng, hãy nhớ sao lưu toàn bộ dữ liệu quan trọng sang một thiết bị NAS bên ngoài.

Instruction email to Peter

Write an email to your user called Peter to instruct him about how to prepare his system before a major software upgrade and resolve an account login issue. Use the notes below. In your email you must use:
- before or after + -ing at least twice to show the order of the steps (Before deploying…, After setting…);
- by + -ing at least once to explain how to do something (You can … by selecting…).
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- back up database files / transfer them to NAS device
- check system logs / verify network connections
- deploy major software upgrade / restart computer
- open login page / select "Reset Password" if account is locked
- set new password / log in to confirm new credentials work

Model email

> From: Pham Thu Ha
> To: Peter
> Date: 25th November
> Subject: Preparing for the software upgrade
>
> Hi Peter,
>
> It should be quite easy to prepare your system for the upgrade.
> First, back up the database files and transfer them to the NAS device.
> Then, before deploying the upgrade, check the system logs and network connections.
> Next, deploy the upgrade and restart your computer.
> After that, open the login page. You can unlock your account by selecting "Reset Password".
> Finally, after setting a new password, log in to confirm that it works.
> Don't forget to log out of the NAS device when you've finished.
>
> Best wishes,
> Pham Thu Ha
> Support Technician
> Help Desk Department

Speaking

2.5 points

Các bài mẫu là gợi ý tham khảo, không phải đáp án đúng duy nhất. Part 1 có câu hỏi mở và không có bài mẫu trong bộ dữ liệu.

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. What did you use a computer or smartphone for yesterday? Describe two or three things you did. Use the past simple.

2. What do you do before and after installing a new app on your phone or computer? Use before + -ing and after + -ing (Before installing…, After installing…).

3. How do you usually find an old file, photo or message quickly on your computer or phone? Answer with by + -ing (by typing…, by searching…).

Part 2 (S2)

Explain the sequence of tasks to a colleague. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

A new IT assistant starts work tomorrow. Explain the steps for setting up a computer for a new employee. Use before, while and after to show the order of the tasks.

- check the employee's job and department
- create a user account on the server
- install the standard software / download the latest updates
- set permissions for the shared folders
- ask the employee to log in and check that everything works

Required language: Before + -ing / before + clause: Before creating the account, …; While + clause: While the software is installing, …; After + -ing / after + clause: After installing the updates, ….

Sample response

> Setting up a computer for a new employee is quite simple if you do things in the right order. Before doing anything else, check the employee's job and department, because this tells you which software and folders they need. Then create a user account for them on the server. After creating the account, install the standard software on the computer. While the software is installing, you can download the latest updates, so you save time. After installing the updates, set the permissions for the shared folders. For example, people in the sales team can open the sales folder but not the HR folder. Finally, before you leave, ask the employee to log in and check that everything works. If there is a problem, you can fix it straight away.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You are an IT assistant. Your manager was away yesterday and asks you what happened. Use the cues to explain how the problem occurred and what you did to solve it. Use the past continuous for the action in progress and the past simple for what happened (… was …ing when …; While I was …ing, …).

- 10.15 a.m.: the sales team / give an online presentation to a client
- the internet connection / drop three times
- you / check the router → find a damaged network cable
- while you / replace the cable → the sales manager / phone the client
- after replacing the cable → test the connection / everything / work

Required language: Past continuous for the longer action in progress: The sales team was giving a presentation…; Past simple for the shorter action and finished actions: …when the connection dropped.; When + past simple, while + past continuous.

Sample response

> Yesterday morning we had a problem with the internet connection. At about quarter past ten, the sales team was giving an online presentation to an important client when the connection suddenly dropped. It happened three times in twenty minutes. First, I checked the router, but it was working normally. Then I looked behind the desk and found a damaged network cable. While I was replacing the cable, the sales manager phoned the client and explained the problem. After replacing the cable, I tested the connection for about ten minutes, and everything worked fine. The team finished the presentation at eleven o'clock. I think we should check all the cables in the meeting room next week.
