Part A

Listen to the conversation and choose the best answer A, B, C or D (Questions L1–L5).

Ben and Sarah, two managers at a furniture company in Manchester, talk about using video conferencing with the company's factory in Vietnam.

L1. Why does Ben want to talk about video conferencing?

A. The factory has asked for it.
B. The company is spending a lot on flights.
C. The designers want to work from home.
D. The old system has stopped working.

L2. How often do the designers fly to the factory?

A. Every month
B. Every six weeks
C. Every two months
D. Twice a year

L3. According to Ben, how could the designers see the furniture samples?

A. The factory could post the samples to Manchester.
B. Someone could hold the samples up to the camera.
C. The factory could email photos every week.
D. One designer could live in Vietnam.

L4. If a meeting starts at 9 a.m. in Manchester, what time is it in Vietnam?

A. 3 a.m.
B. 6 a.m.
C. 12 p.m.
D. 3 p.m.

L5. What does Sarah ask Ben to do?

A. Get prices from two suppliers by Friday
B. Book flights for the designers
C. Present the idea to the directors
D. Visit the factory next month

Part B

Listen to the report and answer the questions. Write NO MORE THAN THREE WORDS for each answer (Questions L6–L10).

Emma, the customer service manager at a bank, reports to her team on how customers are contacting the bank this year.

L6. About how many phone calls a week does the help desk receive now?

Answer (maximum 3 words): _____

L7. Which channel is now the most popular?

Answer (maximum 3 words): _____

L8. Which channel is staying about the same?

Answer (maximum 3 words): _____

L9. What is the name of the app feature that lets customers pay a bill with one tap?

Answer (maximum 3 words): _____

L10. How many more staff will the bank train to answer live chat?

Answer (maximum 3 words): _____

2.5 points · 30 questions

Part 1A: Matching (R1–R5)

Match the terms (1–5) with the correct definitions (A–F). There is one extra definition that you do not need (Questions 1–5).

A. Relating to changing spoken words into written text.

B. A business model in which a company is present both offline and online.

C. A person who writes a web page about a subject, with the newest information at the top.

D. The state of being free from public attention.

E. Saving a file in a way that uses less space, because you do not need it often but may need it later.

F. A way of showing messages that are grouped by topic so that they are easy to read.

R1. Bricks and clicks _____

R2. Threaded view _____

R3. Archiving _____

R4. Speech-to-text _____

R5. Privacy _____

Part 1B: Grammar (R6–R12)

Choose the best answer, A, B, C or D.

R6. These days, more and more of our employees _____ to work from home two days a week.

A. is choosing
B. are choosing
C. choosing
D. was choosing

R7. Video calls are becoming _____ and more popular with our clients.

A. most
B. much
C. more
D. many

R8. The number of paper invoices is going _____ because most customers now choose email invoices.

A. down
B. up
C. off
D. out

R9. If our office _____ a faster internet connection, video calls wouldn't freeze so often.

A. has
B. will have
C. would have
D. had

R10. Our team doesn't have a shared online calendar at the moment. If we had one, we _____ to send so many emails to arrange meetings.

A. wouldn't need
B. don't need
C. won't need
D. didn't need

R11. We use a security method _____ two-factor authentication, which asks for a code from your phone.

A. call
B. called
C. calls
D. calling

R12. Could someone _____ me how to add a signature to my emails?

A. say
B. explain
C. speak
D. tell

Part 1C: Vocabulary (R13–R20)

Choose the best answer, A, B, C or D.

R13. The _____ on this slide shows how the number of online orders went up last year.

A. graph
B. policy
C. method
D. facility

R14. Our company has a strict password _____: staff must never share their passwords with anyone.

A. graph
B. trend
C. policy
D. set-up

R15. Our designers _____ large monitors to small laptop screens because they can see more detail.

A. integrate
B. prefer
C. process
D. decrease

R16. Visitors are not allowed on the company's _____ without an ID badge.

A. procedures
B. graphs
C. trends
D. premises

R17. The meeting room has a new _____ with two cameras, a large screen and a speaker that all work together.

A. set-up
B. trend
C. policy
D. method

R18. Some clients still want _____ meetings because they like to meet people in person.

A. remote
B. face-to-face
C. online
D. virtual

R19. The online shop sends each customer's _____ to the warehouse as soon as the payment goes through.

A. trend
B. graph
C. order
D. policy

R20. Our new office has a training _____ with twenty computers and a projector.

A. facility
B. procedure
C. component
D. method

Part 2A: Reading comprehension (R21–R25)

Read the passage and choose the best answer A, B, C or D (Questions 21–25).

> **New Software at Northgate Hospital**
>
> Northgate Hospital is changing to a new system for booking patient appointments. The old system is getting slower every year, and staff are making more and more mistakes, such as booking two patients for the same doctor at the same time. The new system goes live on 1 June, so all three hundred members of staff who book appointments need training before then.
>
> The hospital's IT trainer, Grace Mensah, asked staff what they wanted to learn. She received more than 150 emails. Many receptionists wrote messages like "It would be great to know how to move an appointment to another day." Nurses asked, "Could someone show us how to print the list of patients for each day?" Several doctors replied that they were too busy to attend long courses.
>
> Grace decided to offer three kinds of training. Receptionists will attend a full-day course in the training room, because they will use the system more than anyone else. Nurses will have two-hour sessions on their own wards. For doctors, Grace is making short videos, each less than five minutes long, which they can watch on their phones between patients.
>
> Grace says that if the hospital had more trainers, she would visit every department herself. Instead, she is choosing one experienced person in each department to be a "super user". After the training, staff can ask these people quick questions instead of phoning the IT help desk and waiting for an answer.

R21. Why is the hospital changing its booking system?

- **A.** The old system is too expensive.
- **B.** The old system is getting slower.
- **C.** Patients want to book online.
- **D.** The doctors asked for a new one.

R22. What did many receptionists want to learn?

- **A.** How to move an appointment
- **B.** How to print a list of patients
- **C.** How to watch training videos
- **D.** How to phone the help desk

R23. Why is Grace making short videos for the doctors?

- **A.** The doctors prefer to learn at home.
- **B.** The training room is too small.
- **C.** The doctors are too busy for long courses.
- **D.** The videos are cheaper than courses.

R24. Who will attend a full-day course?

- **A.** The nurses
- **B.** The doctors
- **C.** The super users
- **D.** The receptionists

R25. What would Grace do if the hospital had more trainers?

- **A.** Make longer videos for the doctors
- **B.** Visit every department herself
- **C.** Close the IT help desk
- **D.** Move the start date to July

Part 2B: True / False (R26–R30)

Read the passage and write T (True) or F (False) (Questions 26–30).

> **How Students Pay at Riverside College Café**
>
> Two years ago, most students paid for their food in the Riverside College café with cash. Now the situation is changing quickly. More and more students are paying with their phones or bank cards,

and the number of cash payments is going down every term.

Last term, only 15% of payments were in cash. Card payments made up 45%, and phone payments made up 40%, but phone payments are increasing faster than any other method. The café manager, Mr Dawson, says that the queues at lunchtime are getting shorter, because a phone payment takes only a few seconds and staff do not need to count change.

However, some older members of staff still prefer to pay with cash. If the café stopped taking cash, these customers would be unhappy, so Mr Dawson has decided to keep one cash till open for now. Next year, the college is planning to add a mobile app so that students can order food before their classes finish.

R26. Two years ago, most students paid for food with cash.

☐ True ☐ False

R27. The number of phone payments is going down.

☐ True ☐ False

R28. The lunchtime queues are getting longer.

☐ True ☐ False

R29. Some older members of staff still prefer to pay with cash.

☐ True ☐ False

R30. The café has already stopped taking cash.

☐ True ☐ False

Writing

2.5 points

Part A: Translation (W31–W35)

Translate these sentences into Vietnamese (Questions 31–35).

W31. Bricks and clicks companies sell their products both in shops and on their websites.

W32. The number of staff who work from home is increasing every year.

W33. If we used speech-to-text software, we could write our reports much faster.

W34. It would be great to know how to switch to threaded view in the company forum.

W35. Our overseas department is becoming more and more important because sales in Asia are going up.

Part B: Instruction email

You are an IT support technician. More and more teams in your company are using DriveHub, the company's file sharing service. Carlos, a new project manager, needs to share his project files with his team. Write an email to Carlos explaining the steps, using the notes below. In your email you must use:
- imperatives and sequence words for the steps;
- at least one sentence describing a current trend (present continuous or more and more), for example about how many teams are using DriveHub;
- at least one second conditional sentence (If + past simple, … would/could + verb), for example to explain what would happen if he chose "Can edit";
- at least one polite request (Could you…? / It would be great if you could…), for example asking Carlos to send you a screenshot.
Follow the standard layout for an email giving instructions: From / To / Date / Subject, a greeting, It should be quite easy to …, the steps with First / Then / Next / After that / Finally, a reminder (Don't forget to … when you've finished.), then Best wishes and your name, position and department.
Write 80–100 words (do not count the From, To, Date and Subject lines).

- open DriveHub / sign in with your staff ID
- create a new folder / name it with the project name
- upload the project files into the folder
- share the folder with your team
- choose 'Can view' (if 'Can edit': everyone could change the files)
- ask Carlos to send you a screenshot of the shared folder
- reminder: sign out

Required language: Imperatives with sequence words: First, Then, Next, After that, Finally; Describing current trends: present continuous; more and more + noun; Second conditional: If + past simple, … would/could + verb; Polite requests: Could you…?, It would be great if you could….

Write 80–100 words in the body: count from the greeting through the signature; exclude From / To / Date / Subject.

From: _____

To: Carlos

Date: _____

Subject: _____

Hi / Dear Carlos,

It should be quite easy to _____ .

First, _____ .

Then, _____ .

Next, _____ .

After that, _____ .

Finally, _____ .

Don't forget to _____ when you've finished.

Best wishes,

[Full name] _____

[Job title] _____

[Department] _____

Speaking

2.5 points

Part 1 (S1)

Answer the three questions. Speak for 30–45 seconds for each question.

Suggested time: 45 seconds per question.

1. How is the way people shop changing in your country? Describe two trends. Use the present continuous and phrases such as more and more, is getting + comparative, or is going up/down.

2. If you could add one new feature to your favourite app, what would it be and why? Answer with the second conditional (If I could…, I would…).

3. Think of a technical word that you know, for example cloud storage or Wi-Fi. Explain what it means to someone who does not know it. Use at least one of these ways to give a meaning: called, which means, or is.

Part 2 (S2)

Ask for training. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

You have just joined a company that uses an enterprise social network. Leave a voice message for the IT trainer. Explain that you are new, then ask for the training you need, using the cues. Make at least four polite requests (It would be great to know…, I'd like to know…, Could someone tell me / show me…?, Could you…?).

- how to find old messages
- how to join the group for your project
- how to change the privacy settings on your profile
- how to use the network on your phone
- the date and place of the next training session

Required language: Polite requests (at least four): It would be great to know how to…; I'd like to know…; Could someone tell me / show me…?; Could you…?.

Part 3 (S3)

Deal with the situation. Speak for 1–1.5 minutes.

Suggested time: 90 seconds.

Your parents run a small bookshop in your town. They do not have a website, and sales in the shop are going down. They ask you what would happen if they started selling books online. Use the cues and answer with at least four second conditional sentences (If you sold…, customers would/could…).

- now: only customers who live in the town
- an online shop: customers from all over the country
- online payment and home delivery
- customer reviews on the website
- cost: about £40 a month for the website, more time to pack orders

Required language: Second conditional (at least four sentences): If + past simple, … would/could + infinitive.
